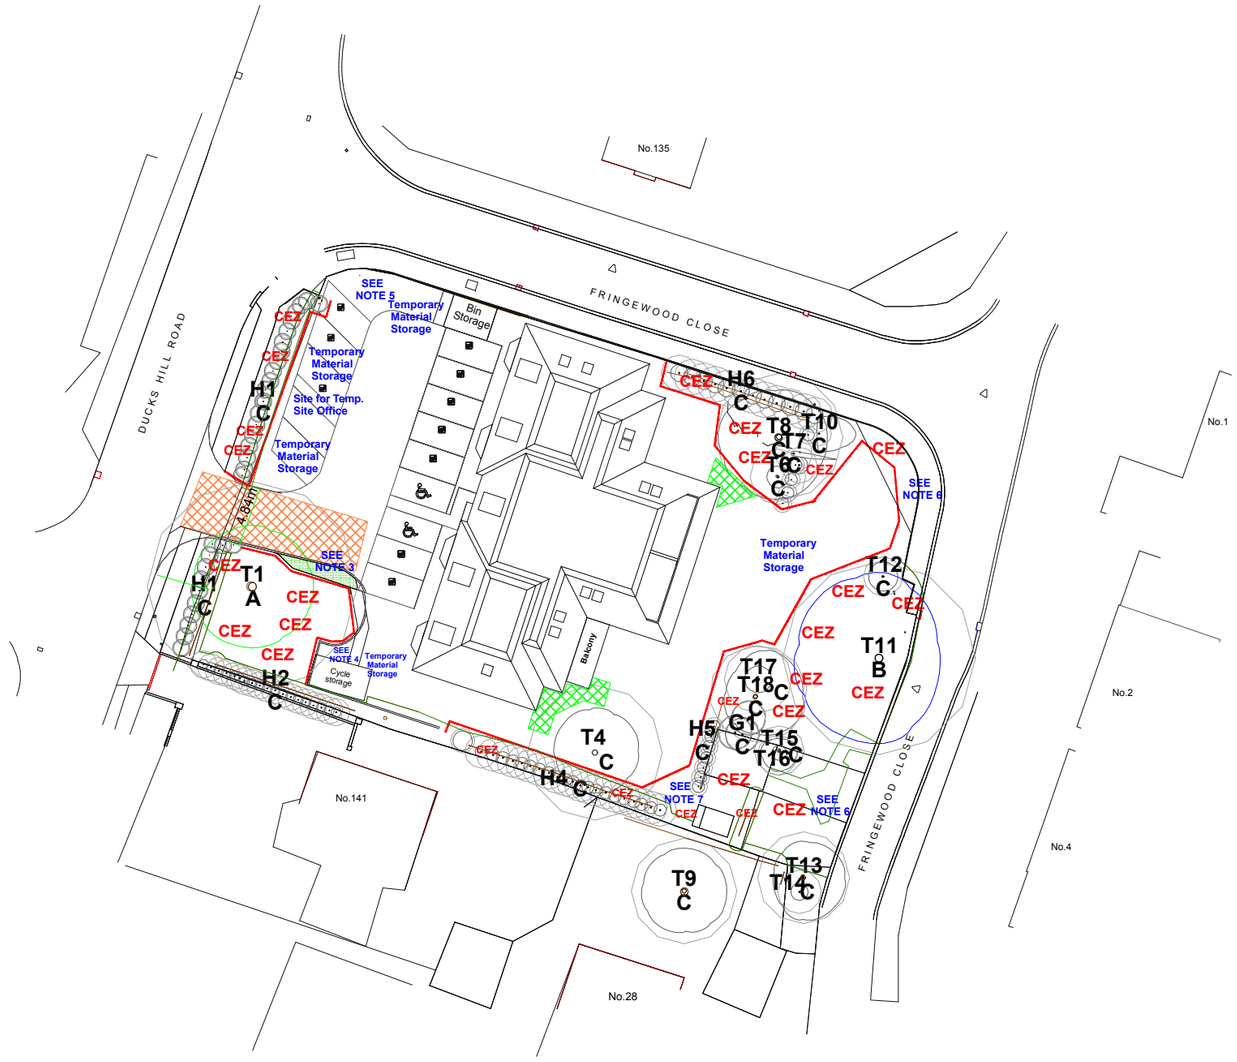
KEY

Root Protection Area (RPA)
Crown Spread
BS: 5837 Retention Grade
Temporary Staked Tree Protection Barrier (TPB)
CEZ = Construction Exclusion Zone
Temporary Ground Protection
Temporary Scaffolding incorporating planked Ground Protection

NOTES
1. The exisiting property is shaded in gray.
2. Trees T2, and T5 including an 11m length of H5, H3 (complete) and the southern-end section of H1 (next to the widened drive) have been removed to faciltate development and open up the garden.
3. The existing northern edge of the driveway running past T1 has been retained on plan to compare that with the (proposed) revised driveway layout. NB The RPA incursion (shaded green) is only 2.83%.
4. With the build complete the brick edge and paving adjacent to the Cycle Storage can be removed and planted up as a lawn area: an RPA gain for T1.
5. The existing driveway entrance to used during the build. On completion drive to be removed and a sweet gum tree (or similar sized species) to planted.
6. New tree planting area fenced-off as a CEZ: recommended mix of silver birch, hornbeam and yew (at least 8 trees).
7. New tree planting area for a silver birch fenced-off as a CEZ.



THIS TREE PROTECTION PLAN MUST BE READ IN CONJUNCTION WITH THE ARBORICULTURAL METHOD STATEMENT THAT ACCOMPANIES THE TREE REPORT
