Side elevation

Application Ref: 53234/APP/2018/3322
The council considered that the porch and side extension combined would measure more than half / two thirds of the dwelling house. The house measures 5.8m in width. The porch and side extension combined measured 5.02m. The porch has been removed and the side extension is now in line with the front wall. The width of the side extension 2.06m is less then half / two thirds of the original house
