Part 2 Policies:

DMHB 11 Design of New Development

DMHB 12 Streets and Public Realm

DMHB 18 Private Outdoor Amenity Space

DMHD 1 Alterations and Extensions to Residential Dwellings

DMT 6 Vehicle Parking

LPP D6 (2021) Housing quality and standards

5. MAIN PLANNING ISSUES

The main considerations are the design and impact on the character of the existing property, the impact upon the streetscene and locality, the impact upon the amenities of adjoining occupiers and the reduction car parking provision.

Character and Appearance:

Policy BE1 of the Hillingdon Local Plan: Part One Strategic Policies (2012) seeks a quality of design in all new development that enhances and contributes to the area in terms of form, scale and materials; is appropriate to the identity and context of the townscape; and would improve the quality of the public realm and respect local character.

Policy DMHB 11 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020) advises that all development will be required to be designed to the highest standards and incorporate principles of good design. It should take into account aspects including the scale of the development considering the height, mass and bulk of adjacent structures; building plot sizes and established street patterns; building lines and streetscape rhythm and landscaping.

Policy DMHD 1 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020) requires that alterations and extension of dwellings would not have an adverse cumulative impact on the character and appearance of the street scene, and should appear subordinate to the main dwelling.

With regard to rear extensions, Policy DMHD 1 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020) states that:

- i) single storey rear extensions on terraced or semi-detached houses with a plot width of 5 metres or less should not exceed 3.3 metres in depth or 3.6 metres where the plot width is 5 metres or more;
- ii) single storey rear extensions to detached houses with a plot width of 5 metres or more should not exceed 4.0 metres in depth;
- iii) flat roofed single storey extensions should not exceed 3.0 metres in height and any pitched or sloping roofs should not exceed 3.4 metres in height, measured from ground level;
- iv) in Conservation Areas and Areas of Special Local Character, flat roofed single storey extensions will be expected to be finished with a parapet;
- v) balconies or access to flat roofs which result in loss of privacy to nearby dwellings or gardens will not be permitted;

The proposed conversion of the garage to habitable accommodation would involve replacing the garage door with a window. The proposed window would match the existing windows and overall fenestration on the dwelling. As such, it is considered that the proposed development would respect the architectural composition of the host dwelling.

In the event of an approval, a condition would be secured requiring the proposed development to be externally finished in materials matching those used on the host dwelling.

It is therefore considered that the proposal would not cause harm to the character and appearance of the host dwelling and the surrounding area, in accordance with Policy BE1 of the Hillingdon Local Plan: Part One Strategic (2012) and Policies DMHB 11 and Policy DMHD 1 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020).

Residential Amenity:

Policy DMHD 1 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020) states that planning applications relating to alterations and extensions of dwellings will be required to ensure, amongst other matters, that: ii) a satisfactory relationship with adjacent dwellings is achieved; and v) there is no unacceptable loss of outlook to neighbouring occupiers. Policy DMHB 11 of the Hillingdon Local Plan: Part Two - Development Management Policies (2020) seeks to ensure that development proposals do not adversely impact on the amenity, daylight and sunlight of adjacent properties and open space.

As the development would be on the front elevation of the property and match the style of the existing development, it is considered that the proposed development would not adversely effect the residential amenities of the neighbouring occupiers, in accordance with Policy BE1 of the Hillingdon Local Plan: Part One Strategic Development (2012) and Policies DMHB 11 and Policy DMHD 1 of the Hillingdon Local Plan: Part Two Development Management Policies (2020).

External Amenity Space provision:

The resulting development would not impact on the existing private amenity space of which 166 metres would be retained, satisfying the requirements set out in Table 5.3 (Private Outdoor

Amenity Space Standards) of Policy DMHB 18 of the Hillingdon Local Plan Part 2: Development Management Policies (2020) for a 4 bedroom dwellinghouse.

Parking and Highway Safety:

The proposal does remove an off street car parking facility, however the property would retain 2 off street car parking spaces. Therefore it is considered proposal would be unlikely to exacerbate the pressure for street parking or prejudice highway safety over the existing circumstances, and a refusal on this ground would be difficult to sustain in the event of an appeal.

Conclusion:

The main body of the report demonstrates that the proposal complies with the relevant policies set out in the Hillingdon Local Plan: Part One Strategic Policies (2012) and Part Two - Development Management Policies (2020). It is therefore concluded, taking all matters into account, that planning permission should be granted subject to conditions.
