1. RECOMMENDATIONS

1.1 Recommendations

That a certificate of lawful use or development be **REFUSED** for the proposed development described above in respect of the land edged red on the attached plans for the following reasons:

The proposed development does not constitute permitted development by virtue of the provisions of Schedule 2, Part 1, Class E of the Town and Country Planning (General Permitted Development) (England) Order 2015 as the proposed outbuilding in conjunction with the existing outbuilding, by reason of its cumulative size and scale is not considered to represent a development required for a purpose incidental to the enjoyment of the dwellinghouse.

This determination is based on your submitted plans. All measurements are taken from existing ground level.

INFORMATIVES

2.0 Planning Considerations

The application seeks a certificate of lawful development for the erection of a single storey outbuilding to the rear for use as a gym/games room.

The proposals clearly involve development as defined in the Planning Acts.

The site is not in a Conservation Area, World Heritage Site or AONB, and benefits from permitted development rights. This type of proposal is not restricted by any Article 4 Direction.

The outbuilding criteria:

- (i) Total ground covered would not exceed 50% of the total area of the curtilage.
- (ii) Would not be situated on land forward of a wall forming a principal elevation of a dwellinghouse.
- (iii) Would not have more than one storey.

- (iv) The outbuilding would be situated within 2 metres of the boundary but would not exceed 2.5m in height.
- (v) The eaves would not exceed 2.5 m.
- (vi) Would not be situated within curtilage of a listed building.
- (vii) No provision of verandah, balcony or raised platform.

Class E.4 of the GPDO stipulates that the provision within the curtilage of the dwellinghouse of any building is required for a purpose incidental to the enjoyment of the main dwellinghouse. As such the onus of proof is firmly on the applicant to demonstrate that the proposed outbuilding would be for such a purpose.

The proposed outbuilding would have a footprint of approximately 28 square metres which would be used as a gym/games room, and given its size would normally be considered to be of a size and scale commensurate to the host dwelling. However in this particular instance as the property already benefits from a detached outbuilding of a similar size. The cumulative footprint of the detached outbuildings at approximately 50 square metres would equate to 125%, 10 square metres more than the footprint of the original dwellinghouse (40 square metres). It is therefore considered that the proposal would not be commensurate to the scale and size of an outbuilding incidental to the enjoyment of the main house. It would not be a minor accompaniment to the host dwelling.

Attempts have been made to secure details of the use of the existing outbuilding and justification for the second outbuilding. No evidence has been put forward to show that the proposed building, its size and layout is reasonably required for a purpose incidental to the enjoyment of the dwellinghouse.

The appellant has not explained why a second outbuilding of the size proposed is required. The description is not given on the application form and only appears on the plan. "gym/ games room", is also imprecise. Quite apart from the vagueness of the claimed intended use, merely making an application for a certificate of lawfulness and stating a proposed use does not provide a case that what is proposed is or would be reasonably required.

The applicant has failed to provide justification for why a second larger structure is necessary and why it would be required for purposes incidental to the enjoyment of the main dwelling house.

It is therefore considered that the proposed development would not be permitted by Class E of Part 1 of Schedule 2 of the GPDO. The proposal would not be permitted under any other part of the GPDO and has not been the subject of a specific planning permission.

SUMMARY

In order for the building to comply with the permitted development rights set out in Schedule 2, Part 1, Class E of the GPDO, the building must be for purposes incidental to the enjoyment of the dwellinghouse. It is considered that the phrase 'for a purpose incidental to the enjoyment of the dwellinghouse, indicates that the purpose should be subordinate in nature, rather than any of the primary purposes for which a dwellinghouse is used.

The scale of the proposed building is considered to not represent a development 'for a purpose incidental to the enjoyment of the dwellinghouse'. As such, the scale and size are considered to fall outside Class E of the Town and Country Planning (General Permitted Development) Order, and as such the application is recommended for refusal.
