Hi Jenna,

Thank you.

Once the amended drawings are received, I will require to issue a reconsultation.

Hi Rebecca,

Sorry I don't appear to have your missed call on my phone.

The drawings are being amended at the moment and will be with you shortly.

Kind Regards
Jenna Allen

Good Morning Jenna,

I have just tried calling again however, I left a message on your voicemail. The issues I have raised in my previous email dated 9th March is quite important. Unless

these issues are addressed, I am afraid I will have to refuse the application for the time being.

Please get back to me as soon as possible.

Thank you.

Rebecca

Good Morning Jenna,

I have tried calling however it went straight to voicemail. Following my site visit, I have identified a few discrepancies from the documents submitted:

Plan 266 Max Configuration Elevation - Sheet 2

- There is an existing telegraph pole with wires adjoining properties across the street, which is absent from the drawing - will this interfere with the proposed?
- Scale of the drawing appears to be incorrect

Plan 216 Max Configuration Site Plan - sheet 2

- The width of the grass verge in which the proposed is located reduces in size towards the north-west - please amend plan to show this.
- Foliage of the trees appears much wider on site - the location of the monopole appears to conflict with an existing tree which can clearly be seen even on the aerial of google map.
- Location of the trees on the plan does not match what is on site.
- Can you confirm if the grass verge is 2m? Based on my site visit and google map, it appears to be less than 2m.

Dar Miss Jenna Allen,

I am the planning officer for this application. The application is valid however, would you be able to amend plan **002 Site Location Plan Issue. B** and label which site is proposed and which is existing? Public consultation will begin shortly therefore, I wish to have this amended beforehand to avoid any confusion from the public.

Thank you.
