

Resident petition to Hillingdon Council

1. Your petition details

Petition Topic	We the undersigned are opposed to planning applications 10622/APP/2021/1490 & 10622/APP/2021/1491 and object to the addition of new residential buildings on this historical, locally significant Grade II listed site. We urge the council to very seriously scrutinize the need for one additional home on this site which has a significant ecological value relative to the SINC and Highgrove Woods. (Note: you can add additional information in a covering letter or separate document if required, attached to this petition. If this petition relates to a current planning or licensing application, if possible please state the application number / details and also indicate why you are supporting or objecting to it)
Your desired outcome	Refusal planning applications 10622/APP/2021/1490 & 10622/APP/2021/1491
Specific location details?	Highgrove House, Lidgould Grove, Ruislip (Note: if you are petitioning about a particular premises, road, area etc...)

Petition Topic and Desired Outcome: [please write this on each page so those signing can read it]

- We the undersigned are opposed to the addition of new residential buildings on this site.
- The proposed building will have significant negative impact to the council listed SINC and its wildlife, who make use of the green open space the new residential building will be built on.
- Construction activities and future congestion from over development of the site raises serious safety concerns for the residents of Yew Tree Lodge.
- It will have a significantly negative impact on the beauty and characteristics of Highgrove House which is a Grade II listed building.
- There is inadequate parking for current residents and Yew Tree Lodge which shares the site.
- Given Pembroke Park is a stones throw away, we urge the council to very seriously scrutinize the need for one additional home on this Grade II listed site.
- We urge the council to refuse planning applications 10622/APP/2021/1490 & 10622/APP/2021/1491
