9 February 2021

Dear Sirs

By Email

Cherry Lane Cemetery Communications Mast, Shepiston Lane, West Drayton, London UB7 9DL

Please find enclosed a Notice informing you that Cellnex UK, on behalf of EE Limited and Hutchison 3G UK Limited, will be submitting an application to the London Borough of Hillingdon Council for a prior approval determination to upgrade the electronic communications base station at this site. The works will include a 2.5m extension to an existing 22.5m high communications mast located approximately 2.3km to the north of Heathrow Airport.

The mast extension proposed will enable EE and Hutchison 3G (the brand 3) to provide improved 3G, 4G, and 5G mobile connectivity services to the local community. In addition to the formal Notification required under Part 16 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, I've also enclosed the following information to assist with your understanding of the works to be undertaken at this site:

- 1490106-00-000-MD020, Rev 20, Site Plan Existing
- 1490106-00-002-MD020, Rev 20, Site Plan Existing
- 1490106-06-103-MD020, Rev 20, Planning Application Proposed (Site Plan)
- 1490106-00-153-MD020, Rev 20, Planning Application Proposed (Elevation).

For the avoidance of doubt, colour is used on the Elevation Proposed drawing for purely illustrative purposes.

Please contact me if you require any further information in relation to this proposal, and I would welcome confirmation that it will not raise any aerodrome safeguarding concerns.

Yours faithfully

Darren Fradgley BA(Hons) DipTP MRTPI
