

NOTES

The drawing is copyright.

Attribution in drawings: is to be checked on site photo to be taken and to be included on the drawing, to communication & not sealed from the drawing.

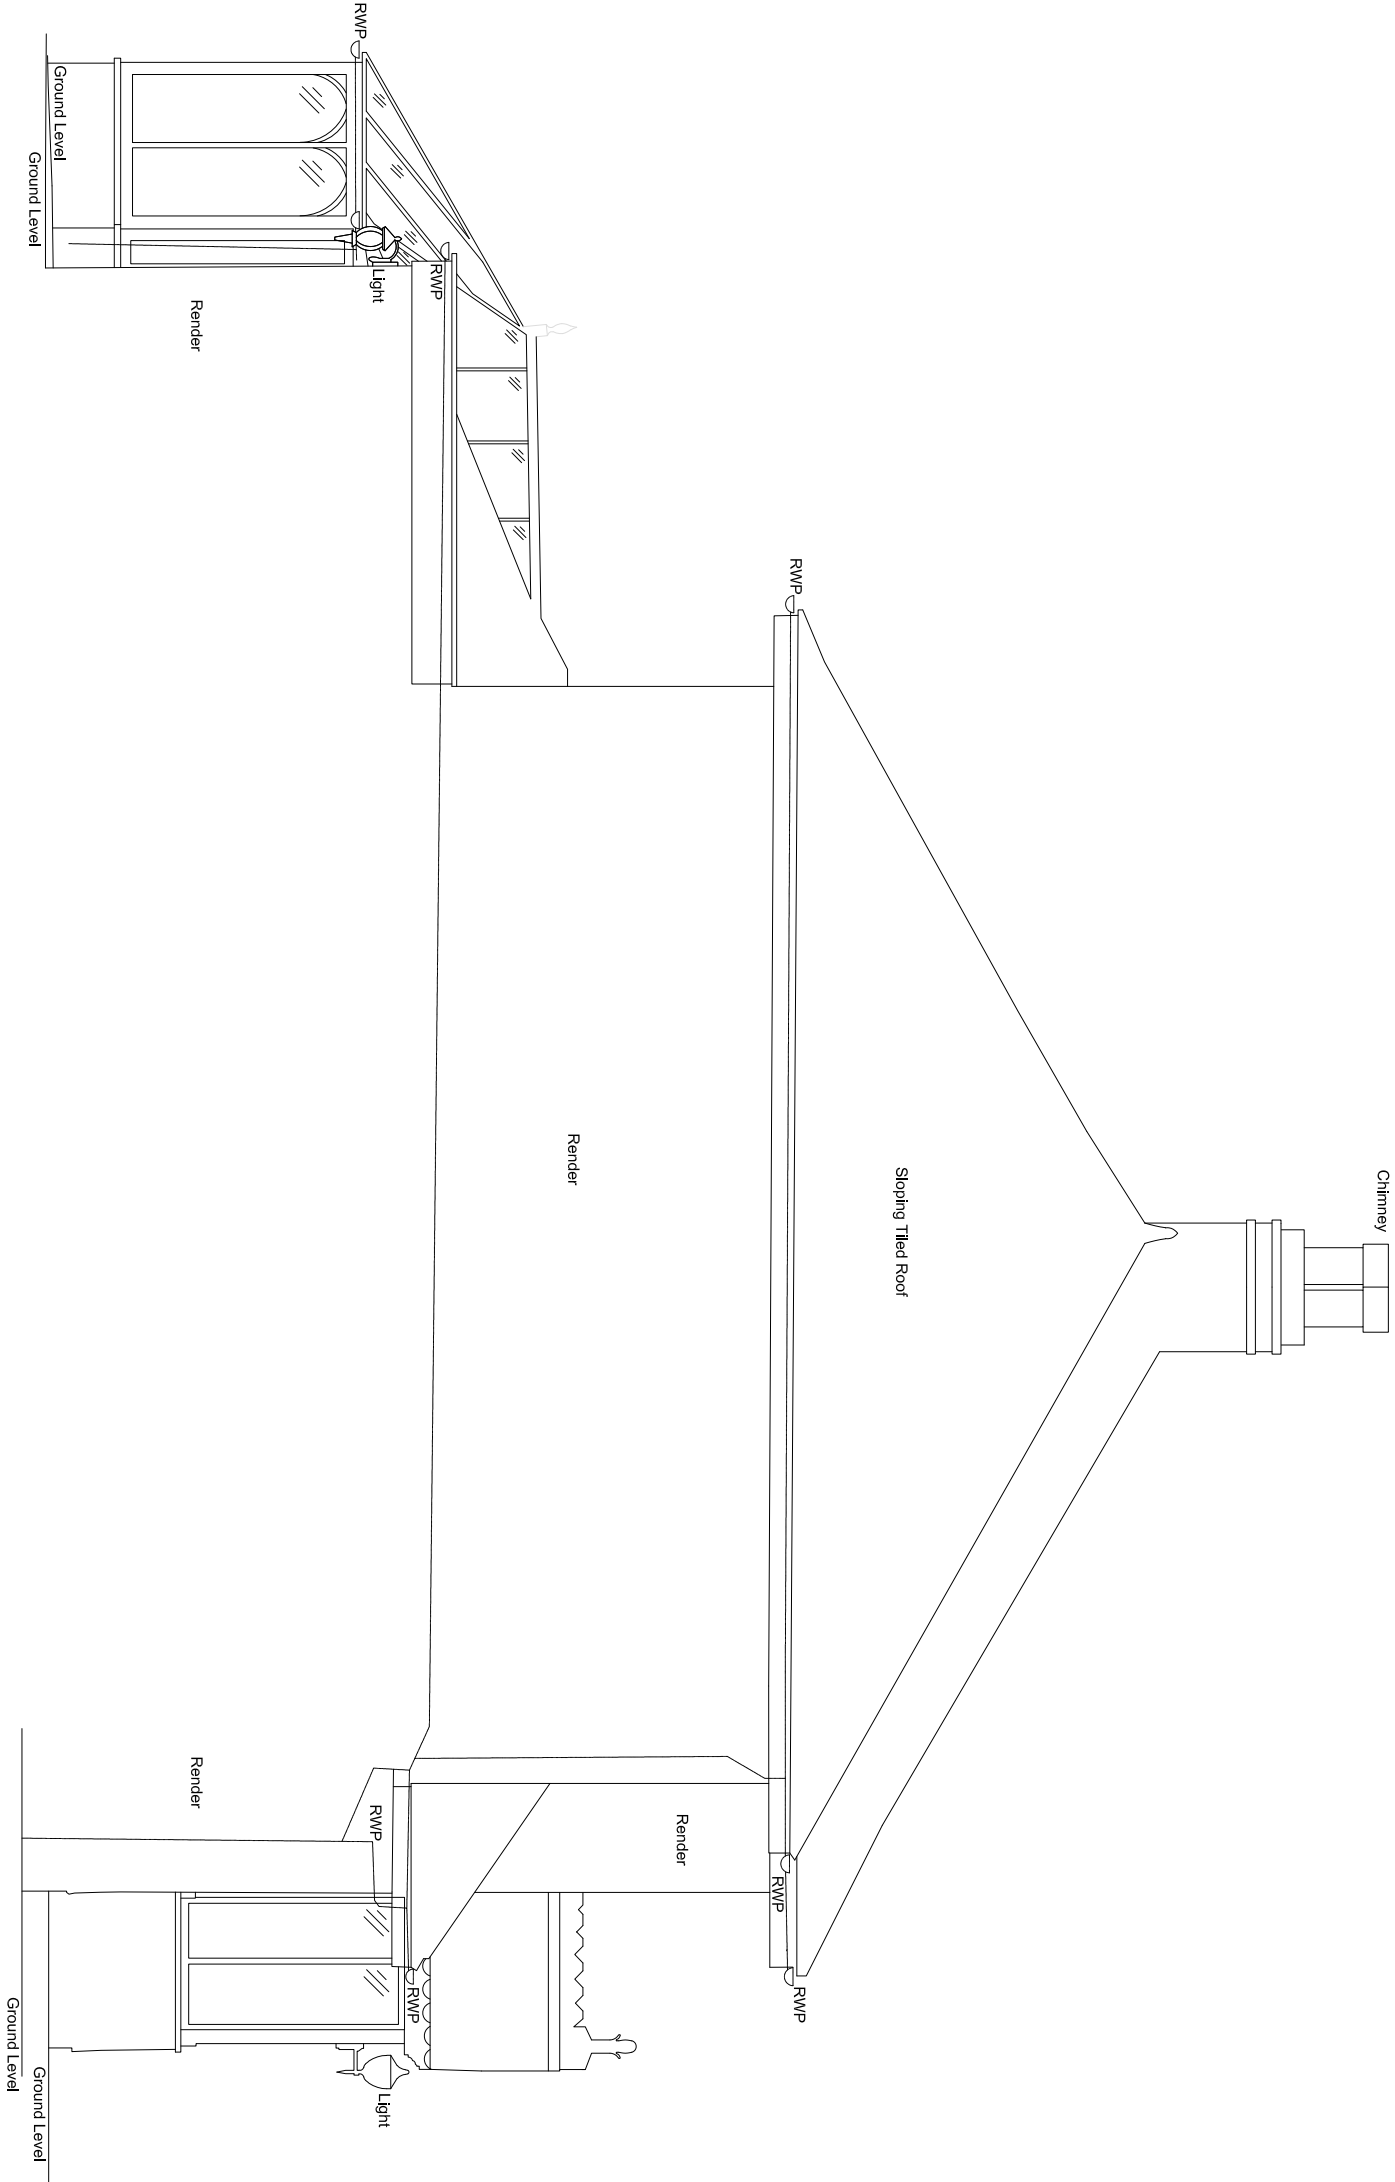

Attribution in drawings: 1 form for clearance. Discrepancies must be reported immediately to the Architect before proceeding.

Be as accurate as the technology allows. The contractor preparing the drawings shall state the site & equipment used, the date of the drawing, the name of the drafter, and the name of the drafter with the problems involved & shall make it in the plot or an additional whether shown or not which may reasonably be considered necessary to ensure a real structurally sound construction of the job.

The contract shall issue at stipulated notices to the local authority and the contractor.

Authority during progress & completion of works.

This drawing is to be used in conjunction with Engineers drawings and contract documents.
