

**Subject:** FW: J2175-High Street Uxbridge: 66 High Street - Pre DPC planning conditions.  
**Date:** Tuesday, 24 January 2017 at 15:46:02 Greenwich Mean Time  
**From:** David Holmes  
**To:** David Holmes  
**Attachments:** TITON HRV1 Q.PDF, Datasheet - 7 Series DS - Fully insulated.pdf, DOC003.pdf, DOC002.pdf, DOC004.pdf

In regards to 19 and 20

### **Ventilation**

The HIU and MVHR has been utilised for flats, which has got self-filtration for treating fresh air intake to each flat.

We have attached the specifications for both the HIU and MVHR (first 2 pdfs) and a typical flat, which shows the ventilation system design in a typical flat (DOC004).

### **CHP & Boiler**

We have attached the data sheets highlighting the NOx levels for both. The boiler is 40 and the CHP is 35, so they are both in the requirements of the building regulations of 40 and under (pdf DOC002 AND DOC003).

Regards

Gary Hanley

Electrical Design Engineer
