All drawings are for the purpose of gaining Planning approval only.
All written dimensions to be taken in preferences to scaled dimensions.

The contractor is responsible for checking and verifying measurements on site prior to any work commencing. All work is to be carried out to be the requirements, and to the satisfaction of the Local Authority.

This architectural drawing illustrates a proposed extension to an existing building. The existing building, located on the right, has a gabled roof and a single window. The proposed extension, shown on the left, is a two-story structure with a brick patterned facade. It features four windows: two on the ground floor and two on the upper floor. An arrow points from the text 'Obscure Glazed Window opening only above 1.7 M from floor level' to the upper floor windows. The extension is built with a material described as 'Material similar to existing'. To the left of the extension is a 'Drive Way' and a 'Rear Garden'.
