This architectural cross-section diagram illustrates a building addition. The existing building, located on the left, is a two-story structure with a brick facade and three windows on each level. A new addition is being built on the right, indicated by a diagonal line and a label 'Existing Building'. The addition is a single-story structure with a brick facade and two windows. A red line labeled 'C.L.' (Center Line) runs horizontally across the bottom of the diagram, marking the center of the building's footprint. A callout line with the text 'Material similar to existing' points to the brickwork of the existing building.

An architectural elevation drawing of a three-story brick building. The building features a central entrance on the ground floor with a double door and a transom window above it. Above the entrance is a two-story section with a large, multi-paned window on the second floor. The top floor has a single, large, multi-paned window. The roofline is curved, and a red horizontal line is drawn across the top of the building, just below the roofline. The left side of the building is a vertical brick wall, and the right side shows a corner with a window and a small section of the roofline.

This architectural section drawing illustrates a proposed extension to an existing building. The 'Existing Building' is shown on the left, featuring a brick wall and a window. The extension, labeled 'Proposed Extension', is built of concrete and includes a glass-enclosed area. The roof is a stepped, multi-layered design. Labels indicate 'Material similar to existing' for the extension's brickwork and concrete. The drawing also shows a 'Rear Garden' and a 'Drive Way' at the bottom. A blue arrow points to a detail of the roof's structural support.

Scale: 1:100

Scale: 1:100

This architectural elevation drawing shows a brick building with a central entrance. The building features a brick facade on the left and a blocky, textured facade on the right. A central vertical line marks the entrance. On the left side, there are four windows arranged in a 2x2 grid. On the right side, there are three windows arranged vertically. The top of the building has a curved, arched section with horizontal lines. A red line at the top and bottom indicates the height of the building. A red line on the right side indicates the height of the entrance area. The drawing is done in black and white with some red highlights.

This architectural site plan illustrates the layout of a property. The main building, shown with a hatched roof, has a rear garden area labeled "Rear Garden". To the left of the building is a "Drive Way". The property is bounded by a fence on the left and a wall on the right. A blue arrow points towards the rear garden area.
