Being a detached bungalow the proposed extension will be 3.6m to 3.7m away from the nearest neighbouring building footprint. The profile of the roof is pitching from side to side, and have gables to the front and back only, which will further reduce the impact of the additional storey to its surrounding.

In the case of upwards extensions this includes neighbouring properties which are not contiguous with the proposed development site. Further details should be provided for these appliaction types

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

All the properties along the side are detached and have punctured view of the school field in between the dwellings. There are no impacts to any neighbouring buildings towards any protected view from the proposed extension.
