

### The Six Bells, Ruislip

#### Proposed location of bird boxes

● Marks the location of proposed boxes, 9 Oaks and 1 Field Maple have been chosen as locations, with Ash being unsuitable due to their declining condition.

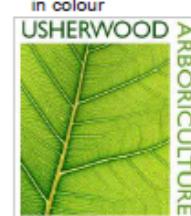

10 x Schwegler 1B Nest boxes are to be installed at a height of approximately 4 metres upon the stems of 10 mature trees.

Nest boxes will have opening sizes of 26mm, 32mm and oval openings to attract a range of garden birds.

Please note, a baseline survey has not been carried out to ascertain which species of bird frequent the area, therefore a broad approach has been taken to provide a range of nesting facilities.

An installation specification will be provided to the contractors following acceptance of this proposal.
