## Proposed Demolition Works

Please describe the building(s) to be demolished

The site contains two buildings of over 50 cubic meters which are located towards the eastern boundary of the site. There are vacant metal framed buildings of lightweight steel construction which were previously used for the storage of materials in the former builders yard but are now vacant. Further detail on the buildings can be found in the demolition method statement submitted with this application.

Please state the reasons why demolition needs to take place

Buildings are in poor condition and are long term vacant. Due to health, safety and security issues it is within the public interest to demolish these buildings.

Please describe the proposed method of demolition

The attached demolition method statement sets out in detail the method of demolition.

In summary, the two buildings to be demolished are of lightweight steel construction. The first stage of demolition would be to remove the existing cladding and secondary steel work. Once the main frame is exposed the buildings will be demolished from the roof down. Finally, the supporting columns will be demolished.

The main method of demolition will be by excavator. All contractors will be trained and provide certification.

How and where would spoil/rubble be disposed of?

All arising waste will be removed to a licensed waste facility and recycled where possible.  
A designated area for waste will be set up with segregation for recyclables and builders rubble  
Steelwork will be recycled and evidence retained that it has been recycled.  
A TFL waste proforma completed by the contractor and returned to TFL upon completion of the works  
Waste shall not be allowed to accumulate on site and shall be removed in a timely fashion  
Any arising asbestos waste will be disposed of by a fully licensed contractor

Please provide details of the proposed restoration of the site

The site will be retained as hard standing pending future redevelopment.

When do you expect the works to commence (date must be post application submission)?

01/03/2024
