## with 12V LED Technology

**Item No. :** HY007PSH 0,3m-12V

Height: 30 cm

**Technical Parameters**

- 12VDC, 2W
- 15 x 2835 SMD LED, 250lm
- With 0.3m H05RN-F 2x0.75mm cable
- With IP67 waterproof safety polarity OO male plug
- Energy efficiency class: E
- IP44, CLASS III

**Size and Material**

- Stainless steel body, PC diffuser
- Product size: Ø9.8x30cm/Ø9.8x50cm
- Units per box: 4 pcs

## Description

### ORION Outdoor Path Lamp with 12V LED Technology: Precision Pathway Illumination for Modern Landscapes

NBHanyuan proudly introduces the ORION Outdoor Path Lamp with 12V LED Technology, a sleek and efficient lighting solution meticulously designed for professional landscape projects, commercial pathways, and discerning outdoor amenity spaces. Available in a sophisticated silver finish and two versatile heights (30cm and 50cm), ORION provides both compelling aesthetic enhancement and reliable, energy-efficient illumination. This low-voltage luminaire is the optimal choice for landscape architects, property managers, and urban planners seeking durable, adaptable, and safe pathway lighting.

#### Optimal Performance & Uniform Light Distribution:

Operating at a safe 12VDC with 2W power consumption, the ORION path lamp delivers 250 lumens of bright, uniform light from its 15 x 2835 SMD LEDs. Its contemporary design with a PC diffuser ensures wide, consistent light spread, effectively illuminating pathways for pedestrian safety and enhanced visual appeal. Designed for seamless integration, it features a 0.3m H05RN-F 2x0.75mm cable with an IP67 waterproof safety
