Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

During the course of other works at this property, we discovered a structural issue. The floorplan of room 5 overhangs the structure below and the external wall 7 roof are supported by a timber beam which is rendered over. This in turn is propped at the corner by a circular steel post. The timber supporting beam is showing signs of decay. We had it inspected by a local Structural Engineer and he recommended it's removal and replacement.
