IP DOOR ENTRY

SMART TECHNOLOGY BUILDING MANAGEMENT OF VISITOR DOOR ENTRY & ACCESS CONTROL

Smart technology means BATICONNECT CLOUD remote real-time monitoring and programming of all your buildings anytime, anywhere.

**Think of BATICONNECT as your
BATICONNECT SAFETY CLOUD. It
automatically backs-up everything for
you on the CLOUD so no risk.***

From anywhere means you can protect your precious assets as if you were actually there.

But it is the simplicity that you will notice first.

Use your own internet enabled devices to log onto www.baticonnect.com from anywhere – so effectively you are at the controls whenever you want.

Share the management of your portfolio of buildings with any number of your colleagues and set access levels.

See in real-time the status of all door controllers – that's cutting-edge technology giving you real-time information feedback so you know if any are offline or malfunctioning and need a service visit.

We've brought the management of your building visitor door entry & access control systems back to the essentials with intuitive control from your own devices.

BATICONNECT CLOUD adds a whole new dimension to your building management passion.

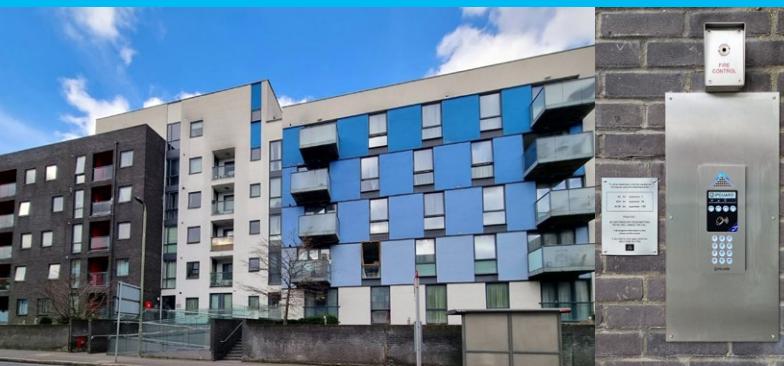

Wireless, constantly evolving and adding new features, limitlessly flexible.

BATICONNECT CLOUD is the connectivity of the future.

Enjoy the thrill of this cutting-edge dialogue technology between you and all your buildings.

* Unlike systems which use site based servers, controllers or gateways where you have the real risk of data loss due to user error, equipment failure, theft or vandalism on site.

REFURBISHMENT USING IPGUARD MINI PLUS

NEW BUILD USING IPGUARD MINI

Smart phones, iPads, tablets

Designed for all communication devices, any platform.

IP DOOR ENTRY

JUST THINK

SMART CLOUD TECHNOLOGY

IPGUARD
4G/IP/GSM SMART
Visitor Door Entry

Building and resident security – guaranteed

The BATICONNECT CLOUD portal has been independently penetration tested and certified. BATICONNECT CLOUD access control incorporates anti-clone proximity key fob protection technology.

ANTI-CLONE PROTECTION

Radio transmitters for vehicle gates have rolling code security.

That's why we achieved Police Preferred Specification status.

Simple and fast installation

Residents answer on their own communication devices; smart phones, iPads, tablets etc.

No cabling to flat, no proprietary video receivers to install and commission – means an IPGUARD installation can be done in a day.

Real-time remote management from anywhere

BATICONNECT CLOUD www.baticonnect.com is your interface platform, from anywhere, anytime. Program fobs, radio transmitters, keypad codes, time zones, door access profiles, view events... absolutely everything.

Regular updates

Smart technology is designed to stay smart through remote updates. If all of it is not part of a CLOUD system it is not forever updateable.

IPGUARD 4G/IP/GSM panels automatically receive regular operating system updates every few months. Just like you get on your smart phones.

There are also regular version updates of the IPGUARD App released onto the Apple / Google App stores for free automatic download.

And of course, the BATICONNECT CLOUD platform is a never-ending project with regular updates with new features etc.

Accessible for all

IPGUARD 4G/IP/GSM panels are fully Equality Act 2010 (DDA) compliant for both visitors and residents and even include a hearing aid loop. It is part of the smart technology communications world.

Robust and elegant

And we haven't forgotten aesthetics and functionality. You will like what you are looking at.

IPGUARD panels and associated proximity readers are tough and include an anti-vandal s.steel range.

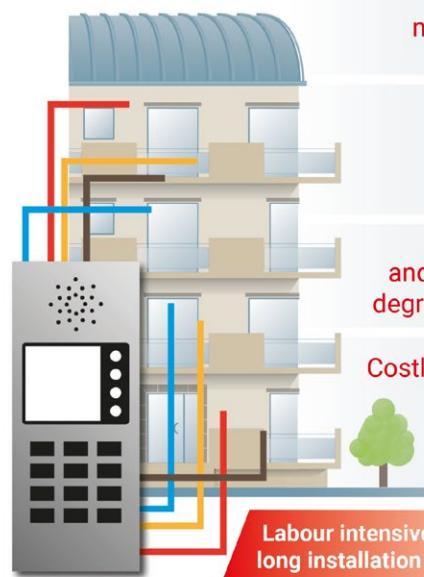

Secured by Design

Police Preferred Specification

HARDWIRED DOOR ENTRY

1000's of metres of cable

Proprietary equipment in each flat

All equipment and infrastructure degrades over time

Costly maintenance and system has a finite lifespan

Labour intensive long installation

IPGUARD® 4G/IP/GSM

No cabling

No proprietary equipment

No degradation, no eventual replacement cost

Remote cost-effective maintenance, no access to flat required

TIME TO INSTALL

Straightforward and quick

IPGUARD APP

THE BEST VIDEO RECEIVER IS ALWAYS WITH YOU

USERS USE THEIR SMARTPHONE TO:

Receive live HD video visitor calls and open the door via the APP.

All openings are logged for security.

View a log with pictures of all visitor calls – received, missed, door opened, access denied – all with time and date.

HOW DOES IT WORK?

 THE VISITOR CALLS THE FLAT

 I ANSWER AND SEE THE VISITOR

 I OPEN THE DOOR FROM MY DEVICE

EXCLUSIVE FEATURES

High definition live video

Full call log with snapshot of calling visitor

Zoom and full screen function

Multi relay control to open doors or vehicle gates

Discrete preview before answering showing visitor calling location

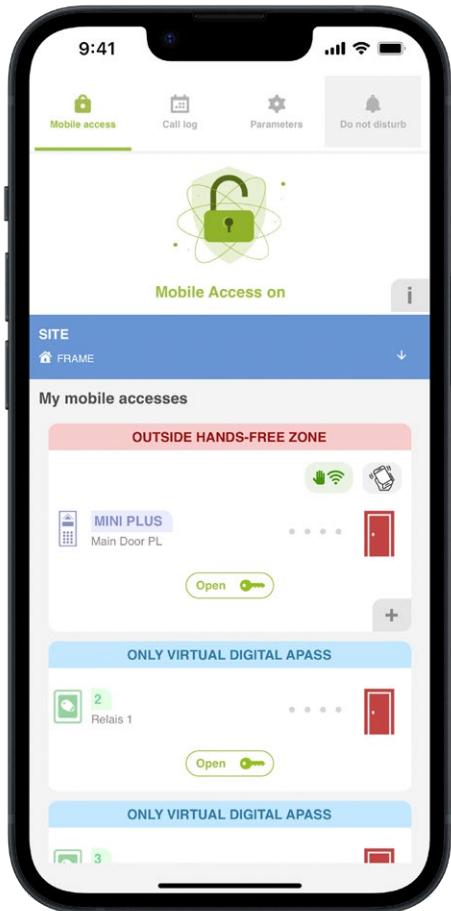

Do not disturb mode

Download the free APP from
Google Play or the Apple APP store.

IPGUARD
Smart App

USERS CAN OPEN DOORS WITH THEIR PHONES

1

DIGITAL HANDS-FREE ACCESS

BLUE TOOTH OPTION

Download the Proximity Key onto your Smart Phone for Hands-Free access when you approach the door!

This is a game changer for elderly persons.

2

THE VIRTUAL KEY

Open a specific door(s) by pressing a virtual key(s) on the IPGUARD App.

All openings logged on BATICONNECT CLOUD for security purposes.

3

ACTIVE GESTURES

Same concept as Apple Pay.

Shake your Smart Phone in the vicinity of the IPGUARD panel or close to a proximity reader to open the door.

KEY BENEFITS

PRACTICAL

ACCESSIBLE

SECURE

SUSTAINABLE

BATICONNECT CLOUD 24/7/365 REAL-TIME REMOTE MANAGEMENT OF ALL YOUR SITES

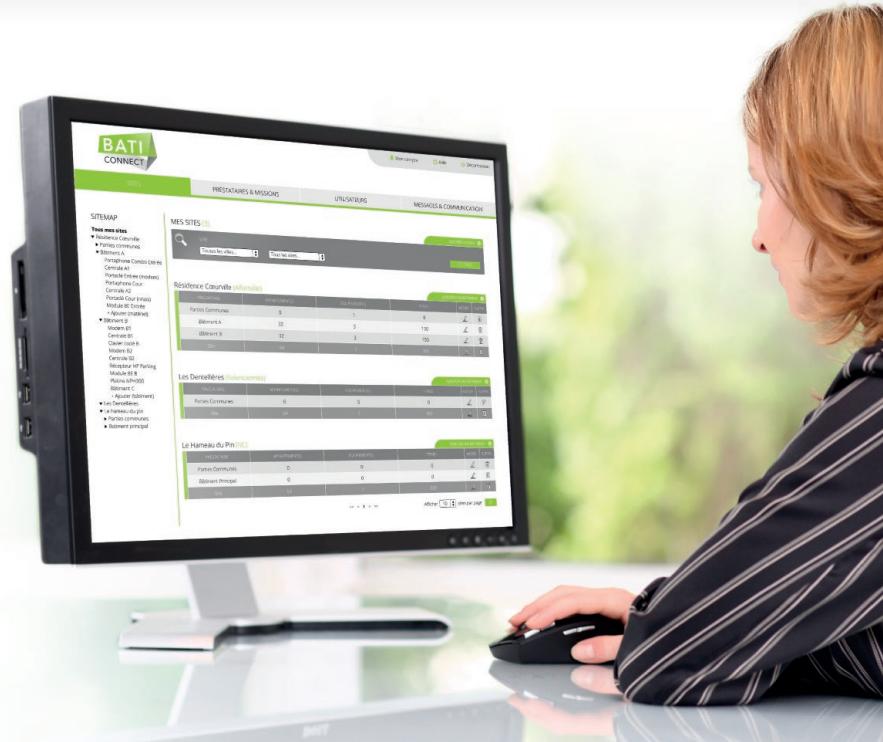

THE BENEFITS

Unlimited video and data communications package, NO additional line rental costs.

Unlimited real-time www.baticonnect.com CLOUD support, NO software required.

The BATICONNECT CLOUD platform provides:

1. Automatic on-going system data back-up.
2. Client access 24/7/365 for remote programming of telephone numbers, proximity keyfobs, radio transmitters, keypads, digital displays and IPKEYSAFE (secure key storage) on all controlled doors and vehicle entrances.
3. A full audit trail and data retrieval of all system usage.

IPGUARD 4G/IP/GSM

FREEDOM AND CONVENIENCE

RESIDENT USES DEVICES SELECTED BY THEM

Not one size fits all with receiving device imposed on resident by manufacturer.

Future proof, as communications / smartphone technology evolves so does IPGUARD.

PERFECT FOR THE ELDERLY AND PERSONS WITH DISABILITIES

You answer on your own devices – the ones you chose to best suit your needs

The call comes to you, not the other way around.

You are safer. If you do not answer the call, it can route through to your carer or children.

CONTACTABLE EVEN WHEN NOT AT HOME

Always in control, always contactable.

Information on all visitors who called your flat available on your smartphone.

AUTOMATIC CALL TRANSFER, MULTI-SHARE

Up to 3no mobiles per dwelling.

If no answer, busy or declined, the call automatically routes forward.

Simultaneous multi-share calling (coming soon).

IPGUARD works with **ALL the communications platforms available today!**

MOBILES

The 3G/4G mobile network allows you to make and receive audio-visual calls to/from your friends.

The free IPGUARD Smart App also allows you to receive video calls via the 3G/4G mobile network (many other features too) from IPGUARD Smart Video Entry Panels.

WIFI FOR INTERNET

Internet access means everybody uses APP's like Skype, Facetime, WhatsApp, Google Duo, Viber etc to make Video calls between users with the same APP's.

The free IPGUARD Smart App also allows you to receive video calls via any Wi-Fi internet connection (many other features too) from IPGUARD Smart Video Entry Panels.

BT LANDLINE

If you use an analogue landline, you can make and receive audio calls to your friends using both fixed and/or cordless telephones.

IPGUARD visitor door entry will also call you via your standard analogue line.

Note: Very few residents now use landlines. We strongly recommend registering your Smartphone mobile numbers.

IPVIEW VIDEO DOOR ENTRY

FULL IP (INTERNET PROTOCOL),
PoE (POWER OVER ETHERNET).

CALLS VIDEO MONITORS & SMART PHONES

IPVIEW
