INFINITE SOLUTIONS

We work with aluminium alloy coils (series 1000 / 3000 / 5000 / 8000), in thicknesses ranging from **0,20 mm** to **3,05 mm** and widths up to **1,550 mm**. We offer from the following coil coated paint systems that can be applied in up to 4 paint layers (**SP / HD SP / PUR / HD PUR / PUR-PA / PVDF / FEVE / LUMIFLON / EP**)

Our production capacity is 50.000 tons of coil coated aluminium coils. We have production centres in Spain and Italy: 4 coil coating lines (3 liquid and 1 powder / liquid) and 4 cutting lines (slitting / sheet cut to length).

LUXE COAT QUALITY

Constantly evolving thanks to our R & D department, all of our products are subjected to strict quality tests, guaranteeing their conformity to standards EN 13523-1:2017 & EN 1396:2015. In addition, all of our products are certified to euro class A1 for fire resistance (according to the standard EN 13501-1:2018). Our products are present in architectural projects around the world.

Comments

- The colours shown are just a sample of the possibilities we offer. We offer the widest range of colours on the market, offering any RAL, NCS and NCS-S color chart. On request, we can also prepare individual colours to match your specifications.
- These charts are of an indicative nature, as printing methods do not warrant exact finishings.
- Please verify the selected color using a product sample before order.
