

35 Pield Heath Avenue, Hillingdon, UB8 3PD

Proposal: Single storey rear/side extension and raising an extension of roof to allow for conversion of roof space to habitable use to include 1 rear dormer

The proposed development is a detached bungalow located in the residential area. There are many surrounding properties on the same street that have been previously extended.

The area displays a multiplicity of building styles and designs, roof heights and shapes. The applicant wants to support current application with the photos of the surrounding area to show that the change in the roof height and shape will not have an adverse effect on the quality of the street scene.

Proposed volume
