

-
- The site plan illustrates the proposed development within a defined boundary. The building footprint is shown with a central courtyard area. To the left of the building, three parking spaces are indicated. The boundary is marked by a red line, with labels 'BOUNDARY LINE' at the top and bottom right. A north arrow is located in the bottom right corner, pointing towards the top right of the plan. The plan also shows existing structures to the left and bottom left of the proposed site.

The site plan illustrates the proposed development within a red boundary line. Key features include:

- Building Footprint:** A complex, multi-wing structure with various internal courtyards and courtyards.
- Parking Spaces:** Three car parking spaces are located to the left of the building.
- Cycle Storage:** A designated area for cycle storage is located to the right of the building.
- Boundary Line:** A red line defines the site boundary.
- Orientation:** A north arrow is located in the bottom right corner.
- Adjacent Areas:** A hatched area is located to the left of the site, and a large hatched area is located to the right of the site.
