Part Discharge of Conditions

Are you seeking to discharge only part of a condition?

- ☒ Yes
- ☐ No

If Yes, please indicate which part of the condition your application relates to

No development shall take place on any part of the site until a Biodiversity Gain Plan for the site, demonstrating compliance with the 10% biodiversity net gain requirement in accordance with the Environment Act 2021, has been submitted to and approved in writing by the Local Planning Authority.

The Biodiversity Gain Plan should include:

- i. Baseline Biodiversity Assessment: Using the latest Defra Biodiversity Metric, a report of the site's predevelopment biodiversity value; and
- ii. On-Site Enhancement and 30-year Habitat Management Plan (HMP) detailing measures to achieve BNG on-site, including species protection, habitat creation, and ongoing management strategies to maintain gains for a minimum of 30 years. The HMP should, as a minimum, include:
 - a) Description and evaluation of the features to be managed.
 - b) Aims, objectives and targets for management.
 - c) Description of the management operations necessary to achieving aims and objectives.
 - d) Prescriptions for management actions.
 - e) Preparation of a works schedule, including an annual works schedule.
 - f) Details of the monitoring needed to measure the effectiveness of management.
 - g) Details of the timetable for each element of the monitoring programme.
 - h) Details of the persons responsible for the implementation and monitoring.
- i) Report to the Council routinely regarding the state of the Biodiversity Net Gain requirements for development in years 1 (post-completion), 3, 5, 10, 20, and 30, with biodiversity reconciliation calculations at each stage.

Where a biodiversity net gain of 10% is not achievable on site, in addition to the Baseline Biodiversity Assessment (i), the following shall be included in the BGP:

- iii. Off-Site Biodiversity Credits or Statutory Credits: Where on-site measures do not achieve the 10% net gain, confirmation of the purchase of off-site biodiversity credits or statutory credits must be provided, including a receipt or proof of transaction as part of the Plan.

The approved Biodiversity Gain Plan shall be strictly adhered to, and development shall commence and operate in accordance with it.

REASON

To ensure the development delivers a Biodiversity Net Gain and secures the protection and effective management of the remaining habitat on site in accordance with Policy 15 of the National Planning Policy Framework, Policy G6 of The London Plan, and Policy DMEI 7 (Biodiversity Protection and Enhancement) of Hillingdon Council's Local Plan Part 2 Development Management Policies.
