Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

The current building and site

Was the current use of the building as dwellinghouses only granted by virtue of permitted development rights under Schedule 1, Part 3, Class G, M, MA, N, O, P, PA or Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended)?

Yes
 No

Was the current building constructed between 1 July 1948 and 28 October 2018?

Yes
 No

Have additional storeys already been added to the original building (as it stood on 1 July 1948, or as built after that date; or, if 'Crown land', as it stood on 7 June 2006, or as built after that date)?

Yes
 No

Is any part of the land or site on which the building is located:

- in a conservation area;
- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site;
- in a site of special scientific interest

Yes
 No

The proposed development

Will the proposed additional storeys only be constructed on the principal part of the building (i.e. the main part of the building excluding any front, side or rear extension of a lower height, whether this forms part of the original building or a subsequent addition)?

Yes
 No

Would the floor to ceiling height, measured internally, of any proposed additional storey exceed:

- 3 metres; or
- the floor to ceiling height, measured internally, of any existing storey of the principal part of the existing building

Yes
 No

Would the proposed extended building's:

- height exceed 18m (as measured from ground level to the highest part of the roof); or
- roof be:
 - more than 3.5 metres higher than the highest part of the existing roof, where the existing building consists of one storey above ground level; or
 - more than 7 metres higher than the highest part of the existing roof, where the existing building consists of more than one storey above ground level.

Yes
 No

If the dwellinghouse is not detached, would the proposed extension result in the highest part of the roof exceeding 3.5 metres above either:

- the highest part of the roof of the building it is joined to (e.g. by party wall or adjoining main wall); or
- if in a terrace, the highest part of the roof of any building in the row it is situated

Yes
 No/The dwellinghouse is detached

Will the development include a window in any wall or roof slope forming a side elevation of the building?

Yes
 No

Will the roof pitch of the principal part of the proposed extended dwellinghouse be the same as the roof pitch of the existing dwellinghouse?

Yes
 No

Will the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?

Yes
 No

Following the development, will the dwellinghouse remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

Yes
 No

Related operations and works

Will any proposed engineering operations reasonably necessary to construct the additional storeys include:

- Provision of visible support structures on or attached to the exterior of the building upon completion of the development; or
- Anything other than works within the existing curtilage of the building to strengthen existing walls or foundations

Yes
 No

Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any works proposed

Proposed Loft Conversion to rear of 26 Crosier Way along with Proposed Dormer to front of 26 Crosier Way. The family has outgrown their home and are now seeking permission to extend upwards to facilitate comfortable living arrangements for their growing family.

Please describe the effects of the proposed development on the external appearance of the building including the design and architectural features of the principal elevation (and any side elevation that fronts a highway)

All elevations have been designed to remain in keeping with the existing vernacular and architectural language featured at 26 Crosier Way. The proposed development is set back from the principal elevation of the home to act as a subtle means of upwards development, allowing for sensible expansion of the home whilst minimising the requirement for complex structural engineering solutions through the use of simple and traditional timber framed construction methods. This set-back approach also minimises any overshadowing and allows for the extension to build upon the current character of 26 Crosier Way. The loft conversion to the rear of the property will also be constructed based on traditional timber framed construction methods.

In the case of upwards extensions consideration must be given to every face of the building

Measurements

What is the current height of the dwellinghouse (in metres, as measured from ground level to the highest part of the roof).

8

What will be the height of the dwellinghouse once the additional storeys are added (in metres, as measured from ground level to the highest part of the roof).

8

Impacts and risks

Please provide details of any air traffic and defence asset impacts and how these will be mitigated

There is side access to the rear of 26 Crosier Way and adequate space for storage of construction materials so there should be little to no affect on residents towards the main residential street.

Please provide details of the impacts of on the amenity of any adjoining premises including overlooking, privacy and the loss of light and how these will be mitigated

As previously stated, the proposal has been designed to mitigate overlooking and privacy concerns and would not seem to cause loss of light to any adjoining or nearby property.

In the case of upwards extensions this includes neighbouring properties which are not contiguous with the proposed development site. Further details should be provided for these application types

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

N/A

These are identified in the Directions Relating to Protected Vistas dated 15 March 2012 issued by the Secretary of State.

Site information

Please note: This question is specific to applications within the Greater London area.

The Mayor can request relevant information about spatial planning in Greater London under [Section 346 of the Greater London Authority Act 1999](#).

Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?

Yes
 No

Declaration

I/We hereby apply for Prior Approval: Additional storeys on a dwellinghouse as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

I / We agree to the outlined declaration

Signed

Ahmed Afzal
