Project: 25 Potter St., Northwood, London. HA6 1QJ
Outline: Side & Rear, Ground & First Floor Extension to Family House.

Building & Site Photographs.

Image No.1: The existing rear elevation facing the long garden. Please note that the proposed extension will bring the back of the building in-line with the rear of the buildings on either side of the site. This is also true of the first-floor extension of the building on the left-hand side of this image.

Image No.2: Please note that the proposed first-floor extension will be in-line with the first-floor extension of the building on the left-hand side of this image.

Image No.3: The existing building is currently set-back from those on either side & the proposed extension will bring them all in-line.

Image No.4: From inside the Laundry Room showing the two separate extensions (in two slightly different bricks) built on the rear of the neighbouring house.

Image No.5: We propose converting this space into the new Kitchen.

Image No.6: The existing Kitchen window facing the rear garden.

Image No.7: The existing front of the house will have the garage door replaced with a Bedroom window in the same way as the neighbouring house.
