

A line drawing of a house. The house has a gabled roof with a chimney on the left side. The roof is filled with a pattern of small, light blue squares. The walls are white, and there are three windows: a small square window on the left, a medium square window in the center, and a tall rectangular window on the right. The house is set on a light blue base.

This architectural drawing shows a side elevation of a building. The structure features a gabled roof with a textured surface, possibly representing tiles or a specific material pattern. Below the roofline, there is a horizontal band of a different material, likely a decorative cornice or a change in wall material. The main wall is constructed of brick. A large window unit is centered on the ground floor, consisting of five vertical rectangular panes. The window is set within a frame that includes a small decorative element at the top center. The drawing is a black and white line art representation.

A line drawing of a house. The house has a gabled roof with a chimney on the left side. The roof is covered in shingles. The walls are made of bricks. There are two windows and a door on the front facade. The house is shown from a side-on perspective.

A simple line drawing of a house. The house has a gabled roof. On the right side, there is a chimney with a brick pattern. The drawing is minimalist, using only black outlines on a white background.
