

**EXTENSIONS to HIGH MEADOW CLOSE CARE HOME,
HIGH MEADOW CLOSE, PINNER
HA5 2HD**

AIR QUALITY ASSESSMENT

November 2025

The proposed works will have no adverse impact on the building's air quality. All existing ventilation provisions will be maintained, and any new openings or alterations are designed to comply with current Building Regulations for ventilation and indoor air quality. As the proposal does not introduce any additional sources of emissions or reduce natural airflow, the internal and external air quality of the building will remain unaffected.
