Terrafina
System

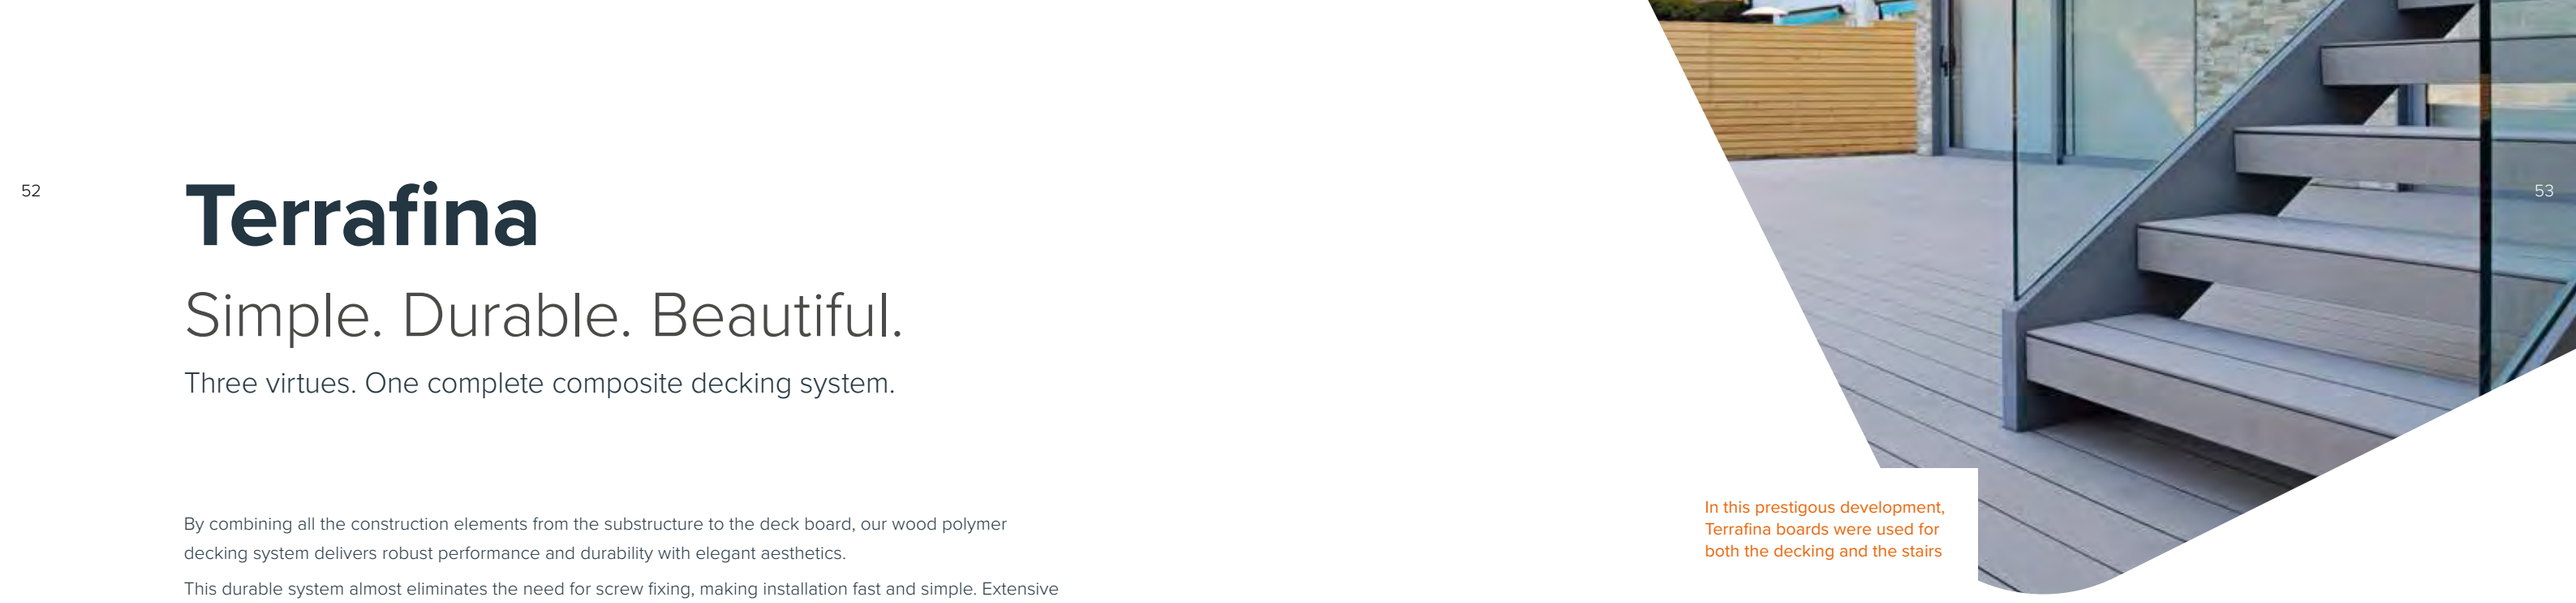

Terrafina

Simple. Durable. Beautiful.

Three virtues. One complete composite decking system.

By combining all the construction elements from the substructure to the deck board, our wood polymer decking system delivers robust performance and durability with elegant aesthetics.

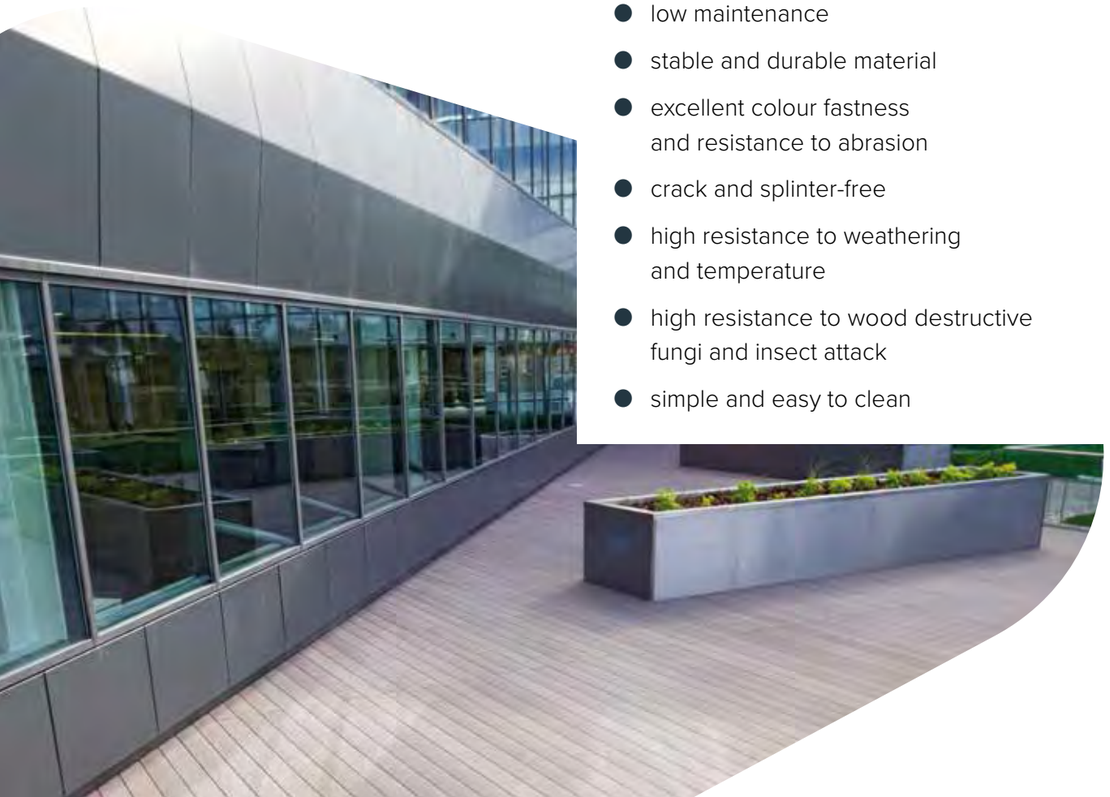

This durable system almost eliminates the need for screw fixing, making installation fast and simple. Extensive research and development combined with a high quality engineering process have produced the finest composite decking system available. Welcome to Terrafina.

In this prestigous development, Terrafina boards were used for both the decking and the stairs

The Benefits

- non-slip surface when wet or dry
- low maintenance
- stable and durable material
- excellent colour fastness and resistance to abrasion
- crack and splinter-free
- high resistance to weathering and temperature
- high resistance to wood destructive fungi and insect attack
- simple and easy to clean

Enhance your exterior environment

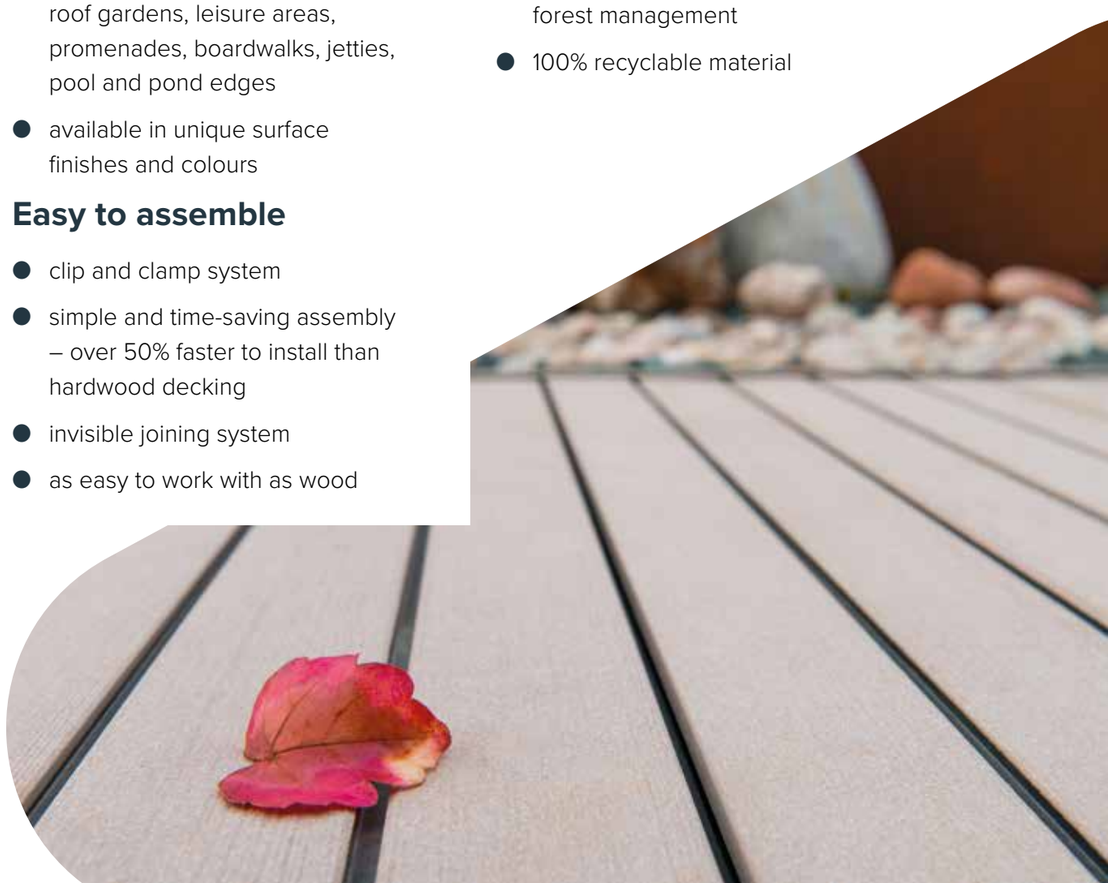

- suitable for the public and private sector
- use for terraces, balconies, roof gardens, leisure areas, promenades, boardwalks, jetties, pool and pond edges
- available in unique surface finishes and colours

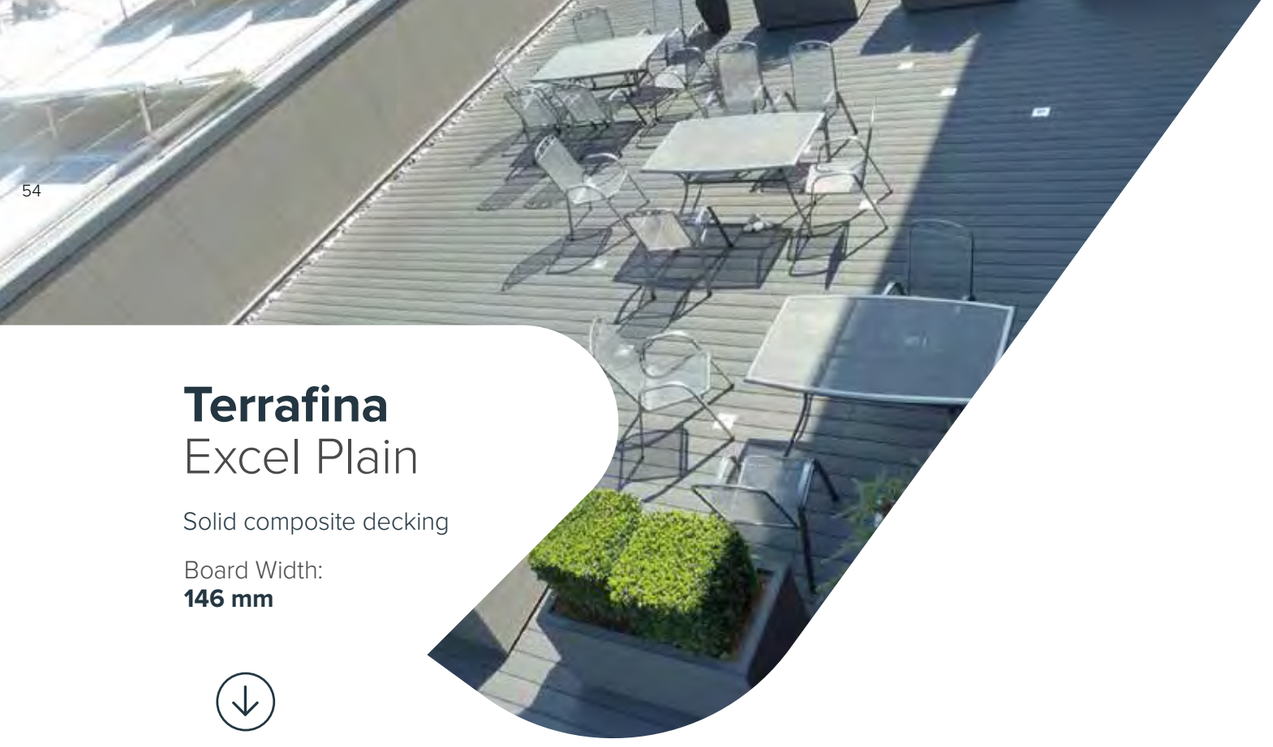

Easy to assemble

- clip and clamp system
- simple and time-saving assembly – over 50% faster to install than hardwood decking
- invisible joining system
- as easy to work with as wood

Ecologically responsible

- eco-friendly – without tropical hardwood
- forest timber – from PEFC certified 100% sustainable forest management
- 100% recyclable material

Terrafina
Excel Plain

Solid composite decking

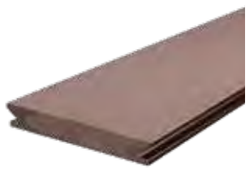

Board Width:
146 mm

Technical Data

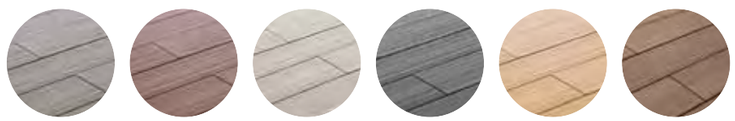

Excel Plain decking

Board width: **146 mm + 4 mm joint**
Height: **21 mm**
Weight: **3.8 kg/lm**
Length: **4, 4.5, 5, 5.5 & 6 m**

Max span between supports: **500 mm**
Max loading between board: **2720 Newtons**

Specifications

Length	Finish	Grey brown	Red Brown	Pebble Grey	Graphite	Sand	Coffee

Terrafina System

Unique fixing system, just clip into place

The assembly of Terrafina deck boards is exceptionally simple using our clip and clamp system. Disassembly and reassembly is equally straightforward if alterations or additions are required at a later date. Moreover the versatile nature of the system enables it to be installed in a wide range of applications.

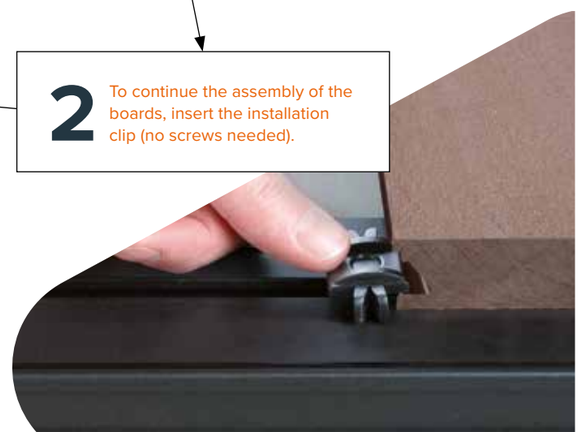

Designed for quick installation

- Only the first fixing row needs to be screw-fixed
- No pre-drilling and screwing of boards
- Just clip and clamp
- More than twice as fast to install as hardwood decking
- No visible fixings

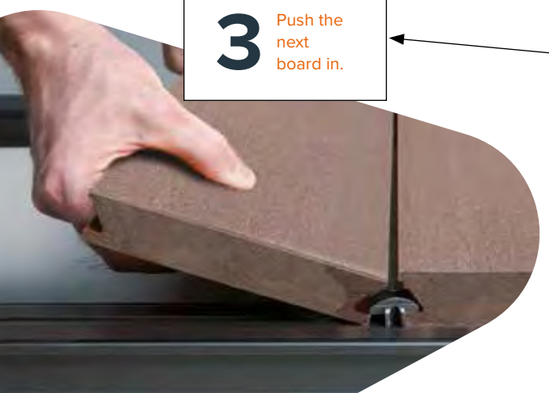

1 Fixing the starter clip on the sub-structure with screws and pushing in the first floorboard.

2 To continue the assembly of the boards, insert the installation clip (no screws needed).

3 Push the next board in.

Terrafina accessories

Joint Profile

Black plastic trim for concealing gaps between boards

5 units per pack

6 m length **502015**

System Edge Profile WPC

This neat and unobtrusive edge profile is easy to install and is suitable for use with any of the Terrafina decking boards.

10 units per pack. Width 30 mm x height 64 mm x Length 4 m

Graphite:	**503013**	Stone Grey:	**503016**
Sand:	**503015**	Pebble Grey:	**503014**
Grey Brown:	**503012**	Coffee:	**503010**
Dark Brown:	**503011**		

System Edge Profile Aluminium

The anodized aluminium profile is available in two sizes and provides a striking contrast to the decking boards.

10 units per pack. Length: 4 m

Width 25 mm x Height 52 mm		Width 25 mm x Height 38 mm	
Colour: Titanium	**501013**	Colour: Titanium	**501012**

LED Lighting

The ultra-flat LED lighting system is a patented, easily mountable and weight bearing light innovation using LED technology.

- Energy-saving and extreme longevity
- Weight bearing construction up to 285 kg
- Installation depth only 6.5 mm
- Top protection class IP67
- Stainless steel case
