Rear Deck

NeoTimber Essential Deck Board in chocolate is proposed as the rear deck material.

ESSENTIAL COMPOSITE DECKING

At last, a lightweight, hollow composite decking board with the quality that our customers have come to expect. An ideal solution for the modern homeowner.

We set out to develop a hollow composite decking board which retains its structural integrity, durability and authentic looks - and we believe that in the Essential decking range, we did just that.

WHY CHOOSE NEOTIMBER ESSENTIAL DECKING?

HOLLOW TUBE DESIGN

The Essential range comes equipped with a hollow 'tube' design, which promises a lightweight composition without a compromise. What's more, we remove a fraction of the material within the core in order to better match the strength of the board's solid alternative.

REVERSIBLE FINISH

Some people prefer a woodgrain finish - some prefer grooves. Our Essential range of composite deck boards has both on a single plank. One side is a authentic woodgrain finish for a natural look, while the reverse is a grooved pattern for a more contemporary feel.

EMBOSSED WOODGRAIN FINISH

A deep, textured woodgrain is a sight rarely seen on hollow deck boards. With many manufacturers tending to simply print a wood-effect on the surface. The Essential range stands head and shoulders above the rest with an etched, deep finish.
