Description of Proposed Works

Please describe the proposed works

Application for a garage conversion at site address. Garage is currently attached to the side of the house which is a detached house but linked by neighbours' side garages. Main proposal is to convert the garage into a downstairs bedroom for elderly mother (who has very little mobility) to stay at the address therefore the only change to the front exterior would be removal of garage doors and introduction of a window as per similar garage conversions on our road. We would have a door from our hallway leading into the room. Ideally we would also introduce an en-suite bathroom (toilet, sink and shower) when developing this. There is a driveway that would be in front of the conversion so it would not look directly on to the path however we are also situated at the end of a cul-de-sac (second to last house) with no through traffic or pedestrians other than visitors.
