Site Plan: As Approved

1:200

The image is an architectural site plan for a property on Bury Road. The plan shows the building footprints of several houses and a larger building complex. The property is surrounded by numerous mature trees, depicted with detailed root structures. A road labeled 'Bury Road' runs along the left side of the property. A detailed inset view is provided in the lower right corner, showing a complex building with multiple wings and rooms, some of which are highlighted in green. This green shading indicates works permitted through Planning and Listed Building Consents. The inset also shows a circular feature, possibly a pond or garden, with a central structure. The overall plan is a technical drawing with fine lines and shading.
