## Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

The applicant seeks to vary conditions 4 and 5 in order to enable the approved children's care home to operate safely, effectively and in a manner consistent with the intended operational model.

Condition 5 currently restricts the home to a maximum of two children. The proposed variation to allow up to three children would make efficient use of the approved accommodation and better reflect the established need for small scale children's residential care provision. The increase from two to three children would not result in a material change in the nature of the use, nor would it give rise to any unacceptable impact on neighbouring residential amenity.

Condition 4 currently restricts the number of staff within the home to a maximum of three at any one time. This limitation does not reflect the staffing levels reasonably required to safely support three children, particularly during daytime operation and periods of overlap between shifts. A modest increase in permitted care staff is necessary to ensure appropriate safeguarding, supervision and care, while maintaining clear planning control over the intensity of the use.

The proposed variations would not result in any unacceptable impacts in terms of noise, disturbance, parking demand or general residential amenity, and the development would continue to operate in accordance with the approved management and operational documents.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

Condition 5 to be varied to read:

"The hereby approved Children's Care Home shall accommodate no more than three children at any one time."

Condition 4 to be varied to read:

"The hereby approved Children's Care Home shall have no more than five care staff within the home at any one time, excluding the registered manager and deputy manager."
