SECURED BY DESIGN METAL 3 BIKE BUNKER DESCRIPTION

NOTE: This product is currently on a 16-18 week lead time. We have a similar product - **SCS Metal 3 bike bunker** (<https://securecyclestore.com/product/metal-3-bike-bunker>), which is available on a 3-4 week lead time.

Our 3 bike high-security bike bunker is a maximum security (all-metal) bike shed. A UK made bike shed to store your most expensive bikes as well as all your cycling accessories, spares and clothing gear in one place.

If you are in a high-risk area where security is an issue, or you just enjoy peace of mind, you'll need maximum protection for your bikes. The high-security 3 bike bunker is built from very thick, heavy gauge galvanised (weatherproof) steel panels and features our heavy-duty integral metal floor - for even more bike security each is supplied with heavy-duty ground bolts, allowing you to secure the bike shed to the ground for TOTAL security.
