

PLAN - Capillary range of tanks

ELEVATION - Capillary range of tanks

NOTES

- Mona Plant Irrigation Systems, supplied by Greentech or similar approved.
- Link 24 tanks to be used only beneath tree rootballs.
- Link 7 tanks to be used only beneath shrub planting.
- All tanks to be installed no greater than 150mm below rooting zone/Rootball to ensure capillary watering is effective.
- Where there is shrub and tree planting, tanks will vary in height within the same planter.
- Each tank is effective up to an area of 1400x800mm & depth of 150mm above top of outlet pipe.
- System to be installed in line with manufacturers specification.
