

An architectural elevation rendering of a long, single-story industrial building. The building features a prominent corrugated metal roof with a dark green ridge. The facade is composed of several large, light gray rectangular panels, some of which are separated by vertical lines. There are also sections with horizontal stripes in shades of gray and white. Small, dark rectangular doors are visible at the base of the building. The building is set against a blue sky with scattered white clouds. The ground in front of the building is a flat, light gray surface.

This architectural rendering shows a long, multi-story building with a distinctive green roof. The building features a combination of light gray and dark gray exterior panels. Large windows are visible on the right side of the structure, and several trees are planted along the front facade. The sky is blue with scattered white clouds.

Architectural rendering of the proposed building elevation. The structure is a long, low-profile building with a green roofline. It features a series of large, light-colored panels and windows. Landscaping includes several trees and a fence in the foreground. The sky is blue with scattered clouds.
