Description of Proposed Works

Please describe the proposed works

Add an Edwardian style brick conservatory to the back of an existing single-storey rear extension with 4.6 meters width and 3 meters depth (see attached drawing for further details). The conservatory will have a solid hybrid roof for better heat retention in the winter while also allowing plenty of light to flood through. The existing garage at the rear of the garden will be demolished prior to this work to compensate for garden space lost to the conservatory while also providing easy access for construction via the rear alleyway.

Both adjoining houses also have existing rear extensions as well which may permit the addition of a conservatory. Furthermore, the household to the left is already in possession of a 3 meter conservatory so the front boundary of the proposed conservatory would align with this.
