

- 1 Existing roof is to be retained and refurbished or replaced like for like where repair is not possible, including flashing and gutters. (refer to roof survey for additional information)
- 2 The chimney brick to be repointed to match existing and all flashing to be made good.
- 3 Existing round rooflight above 3 storey stairwell to be made good and replaced like for like if required.
- 4 All existing guttering to be made good and replaced like for like.
- 5 New render finish to replace existing decaying painted brick walls painted to match colour of Georgian stucco finish.
- 6 New treated timber fence enclosure to A/C Plant to be positioned in front of existing facade.
- 7 Existing windows & doors to be repaired or replaced like for like.
- 8 Existing decaying timber spandrel panels to be carefully removed to allow fire stopping to be made good.  
New rendered rainscreen panel non-combustible cladding system to be installed in lieu of the removed timber.

- 9 New ventilation grille locations following MEP design

- 10 Roof covering to be added to the plant area for compliance with HTM 03-01 document. (When refurbishing or changing the use of an existing building, plant space should be created to house the ventilation plant and other services. If located at ground level they should be secured within a plantroom to prevent unauthorised access.)
