## Proposed South East Elevation

Scale 1:100 @ A3

Timing diagram for a 4-bit parallel-to-serial converter. The diagram shows four data lines (D0, D1, D2, D3) and a clock line (Clk). The data lines transition at the rising edge of the clock. The data is shifted out on the serial output line (S0) at the falling edge of the clock. The diagram is labeled with 0, 1, 2, 3, and 4 to indicate the sequence of data bits.
