- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

If Yes, please provide details of their name, role, and how they are related

Materials

Does the proposed development require any materials to be used externally?

☐ Yes

☒ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

☐ Yes

☒ No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of the Local Planning Authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your Local Planning Authority should make clear on its website what the survey should contain, in accordance with the current "BS5837: Trees in relation to design, demolition and construction - Recommendations".

Biodiversity Net Gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition would apply?

- ☐ Yes
- ☒ No

If No, Biodiversity Screening Summary (Applicant Responses)

- ☒ No trees or vegetation will be removed
- ☒ No impact on habitats or biodiversity features
- ☒ Development is within an existing residential curtilage

Reasons why biodiversity net gain does not apply:

Based on the information provided, the proposed development is considered to fall within the de minimis exemption and is unlikely to require Biodiversity Net Gain assessment. This is on the basis that the works are householder in scale, located within an existing residential curtilage, and are not indicated to impact priority habitats or biodiversity features.
The applicant remains responsible for confirming that no protected habitats or features are affected.

Certificates & Land Declaration

Note: Incorrect ownership certificates are a common reason for invalidation. All owners and land interests must be correctly identified.

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)
