Good morning Amechi,

Please find attached four photographs showing the site notices for application ref. 43155/APP/2020/1075 which were put up today in two locations at the proposed development site, one on the closed landfill entrance gate on the south side of Harmondsworth Lane and one on the opposite (north) side of the road.

We will ensure they remain in place until 21st May 2020 and are thereafter removed.

Thank you

Yours sincerely

Annemarie Wilshaw

Dear Sir/Madam

I write in relation to the above application which has been submitted to the London Borough of Hillingdon for consideration and determination.

Prior to the determination of your application, there is a statutory requirement to display a 'Site Notice' (attached) which advertises your development proposals. In order to ensure all statutory processes are completed, you are asked to follow the instructions below and ensure the site notice is displayed in accordance with legislation.

- 1) Print 2 x copies at A4 of the attached Site Notice PDF document;**
- 2) Please check that the consultation end date is clearly shown at the bottom of the page, it should be a date which allows a clear 21 days of public consultation. If the date is incorrect, please amend the date by hand on the Site Notice to clearly show the end date.**
- 3) Please then either laminate your Site Notice or place it into a plastic wallet (for example a ziplock food bag) to ensure that they can withstand any possible rainfall.**
- 4) Please put up the Site Notice using string outside the application site, this should be placed on a lamppost, fence or other street furniture. The site notice should be secured in a clearly visible position outside the application site.**
- 5) Please can you then take photographs of the Site Notice which clearly show the notice and consultation end date displayed on the notice and a further photograph of the location where this notice was put up (showing the street location). Please can photographs either be clearly dated OR sent immediately after being put up to allow the Council to accurately record the date Site Notices have been erected.**
- 6) If at any point before the end of the 21 day public consultation period, the site notice becomes damaged or is removed, a new site notice must be erected and displayed, please follow the same procedure as set out above.**

Please can the Site Notice and string also be taken down at the end of the consultation period (the day after the consultation expires) to keep the Borough tidy.

Failure to complete the above actions will result in the refusal of planning application.

Regards

K Dafe
