

**A REVOLUTION IN
SMART REPAIRS &
SPRAYBOOTH CONCEPTS**

A revolutionary new concept in automotive spraybooths

- Full low bake spraybooth for manufacturer compliant water based paint products
- Ideal for short term contracts
- Delivered to your premises
- Same day commissioning normally 2 hours
- Profitability plug-and-play unit
- No need for EPA licence
- Self contained, secure and weather proof
- Built-in HPC compressed air system
- Built-in blowers for water based paints
- Office and paint mix room
- Reception and prep bay modules available
- Commercial Smartshop for large vans
- Ultra low energy, quiet running

"The David Utting Smartshop is THE new concept facility which fills the gap between the man & tent painting in the car park or sending the car off-site to the bodyshop."
