

241054 – NEXT, Unit 2, Ruislip Retail Park 190325

Deliveries and Waste Strategy Note

Introduction

This note accompanies the planning application for the following development:

'Installation of an internal mezzanine floor that can be used for Class E(a) retail purposes to sell clothing, footwear and ancillary items and all other items that are permitted under condition 12 of permission 43510/APP/2012/3176 together back of house storage space'

Deliveries

The store will receive daily deliveries which will drop off customer parcels and collect any returns. The white van deliveries will be on site for approximately 15 minutes.

In addition, approximately 4/5 times a week the store will receive stock deliveries via an arctic van. These deliveries have a 30 mins to one hour turnaround time.

Waste disposal

NEXT Stores are serviced by Biffa.

It is expected there will be 3 bins at the site, stored within the service yard for the site.

1. General waste,
2. Food and
3. Glass.

All cardboard and plastic recycling is sent back in the store's deliveries lorries to their local RSC (Responsible Supply Chain)

Biffa collect and empty the bins weekly at differing times of the day and are usually on site for 5-10 minutes.

Simpler Recycling

New recycling legislation is being introduced in England to increase recycling rates.

From 31 March 2025, all workplaces in England have a legal duty to present the following wastes separated in accordance with the arrangements with their waste collector:

- dry recyclable materials - plastic, metal, glass, paper and card (more information on separating recyclable material is in the 'Separating recyclable waste' section)
- food waste
- black bin waste (residual waste)

The attached shows how NEXT are implementing the changes to all their stores. In summary this includes provision of separating mixed recycling, food waste and glass.
