Hi Karl,

Regarding the lighting, hopefully the following information should clarify the intentions:

The Lights in our compound area as per the below image will be on during the night time. This is where our security will be based.

The remainder of the fixed lights we will operate on a Sensor System, where they will illuminate if someone comes into the area.

(This is more for a security purpose in case someone unwanted enters the site and got injured in the excavations)

If any further information is required please let me know.

Kind regards,

Phil

44457/APP/2021/4086

With regards to the proposed lighting, can you provide clarification on when all the lights will be on. There is only 1 annotation in the document about the hours of illumination for the tower lighting. Will be other lighting therefore be on 24/7?

44457/APP/2021/4124

Details of the Construction Method Statement and Construction Environment Management Plan appear acceptable. I am waiting for comments from internal consultees relating to contamination.

Regards

K Dafe

Hi Karl,

Happy New Year, I hope you had a nice break.

Please could you let me know is there any update on the condition discharge applications for the Thames Water Greenway Sewer Diversion, and when we may expect these to be decided?

Many thanks,

Phil
