## The Greenway Sewer Diversion 44457/APP/2021/2212 – Application for Discharge of Condition 4 (Part 3)

Thames Water Sewer Diversion, Ickenham Green, south-west of the Greenway, Ickenham

Dear Sir/Madam,

I am writing on behalf of Thames Water Utilities Limited (Thames Water) to submit an application for the discharge of Condition 4 Part 3 (submission of records of the arboricultural site inspections / meetings), pursuant to the approved plans for the re-routing of a small section of sewer network at The Greenway, off High Road, Ickenham (Reference: 44457/APP/2021/2212).

As you are aware, Thames Water is the statutory sewerage undertaker for the London Borough of Hillingdon. As a statutory sewerage undertaker Thames Water has a duty to provide, improve and extend a system of public sewers and to make provision for the treatment of sewage under the Water Industry Act 1991. This sewer diversion work is essential to ensure that Thames Water continues to provide wastewater services to residents in the surrounding area in its capacity as a statutory undertaker.

Condition 4 (Part 3) requires that:

*Where the arboricultural method statement recommends that the tree protection measures for a site will be monitored and supervised by an arboricultural consultant at key stages of the development, records of the site inspections / meetings shall be submitted to the Local Planning Authority.*

I am pleased to enclose an Arboricultural Monitoring Technical Note (J923.01-DN-LON-004-TN-Z-0007) in relation to the abovementioned condition.

Should you have any queries in respect of this submission, please do not hesitate to contact me. On behalf of Thames Water, we look forward to receiving your confirmation of validation of the application.

Kind regards,

[Redacted signature]
