## The Greenway Sewer Diversion 44457/APP/2021/2212 – Application for Discharge of Condition 1

Thames Water Sewer Diversion, Ickenham Green, south-west of the Greenway, Ickenham

Dear Sir/Madam,

I am writing on behalf of Thames Water Utilities Limited (Thames Water) to submit an application for the discharge of Condition 1 (details of restoration), pursuant to the approved plans for the re-routing of a small section of sewer network at The Greenway, off High Road, Ickenham (Reference: 44457/APP/2021/2212).

As you are aware, Thames Water is the statutory sewerage undertaker for the London Borough of Hillingdon. As a statutory sewerage undertaker Thames Water has a duty to provide, improve and extend a system of public sewers and to make provision for the treatment of sewage under the Water Industry Act 1991. This sewer diversion work is essential to ensure that Thames Water continues to provide wastewater services to residents in the surrounding area in its capacity as a statutory undertaker.

Condition 1 requires that:

*Details of restoration shall be submitted to and approved in writing by the Local Planning Authority, within 6 months of commencement of the development hereby approved.*

I am pleased to enclose the following documents in relation to the abovementioned condition:

- Site Location Plan - J923.01-DN-TS001304-098-DR-L-0901
- Landscape Reinstatement Drawing 1 of 2 - J923.01-DN-TS001304-098-DR-L-0902
- Landscape Reinstatement Drawing 2 of 2 - J923.01-DN-TS001304-098-DR-L-0903
- Landscape Management Plan - J923.01-DN-LON-098-RP-L-0001

Should you have any queries in respect of this submission, please do not hesitate to contact me. On behalf of Thames Water, we look forward to receiving your confirmation of validation of the application.

Kind regards,

[REDACTED]
