Dear Mr Tilly,

Re: Section 73 Extending use of temporary Nanaksar Primary School

We are commissioned in relation to highways and transportation matters relating to the Section 73 application at Nanaksar Primary School to extend the operation of the temporary accommodation at the site until September 2020. No changes to the use of the site are proposed, i.e. all pupil numbers will remain the same and no additional buildings are proposed under the application. As such, we consider that, all analyses used for the Updated Transport Assessment dated May 2016 associated with the previous Section 73 application at the school remains valid. As there are to be no changes to the school in conjunction with the current proposal, we do not consider it necessary to repeat any traffic surveys or reassess the application from a highways and traffic perspective, in conjunction with this Section 73 application.

Notwithstanding the above the Travel Plan has been updated. The Updated Travel Plan is to be submitted with the application documents.

Please do not hesitate to contact us should you have any queries or wish to discuss this matter further.

Yours sincerely,

Justin Bass
