

CLARITY

DESIGNED, DEVELOPED & MANUFACTURED IN THE UK

CLARITY

The new ASD Clarity comprises a range of modern exterior luminaires, designed to be distinctive, eye catching, versatile and durable.

Mountable in both portrait and landscape orientations, the Clarity's versatility will suit all manner of situations and applications.

The Clarity has been designed to achieve optimum performance and to ease installations; all front fix with a hinge and single fixing screw for simplicity of application.

The Clarity incorporates ASD's new autolevel for accurate mounting. Rear trim clips into place for ease of installation and can be screwed in place if required. The Fresnel diffuser, designed to optimise light spread, is sealed and secured with four hidden fixing screws to give a high IP rating.

The diffuser is available in clear or opal polycarbonate with a modern, sparked finish. The 2 x 9w PL gives 20.2 lux, 1m from wall when mounted externally at 2m in vertical orientation.

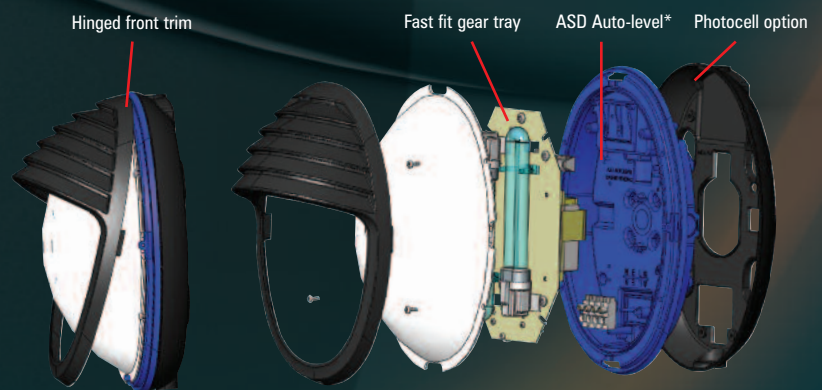

To enhance the range the Clarity also offers a Halo option; the base moulding creates a halo of light complementing the lighthouse bollard and is available with photocell or mini-PIR*.

- Portrait & Landscape options, with plain, eyelid, cage or louvre fascia.
- Energy Saving lamp options.
- High frequency (HF) versions.
- Photocell and PIR* options.
- Vandal resistant polycarbonate construction.
- Halo option in a range of colours.

Auto Level†

This facility eases installation with the inclusion of a mini spirit level to the base of the unit which assists with fitting of the unit straight.

The fastfit geartray simply hooks into place and is secured with a single fixing screw.

Landscape

Portrait

The plain Clarity option is mountable in either portrait or landscape orientation.

Then simply order your required fascia attachment (listed below) to achieve your required design.

The range is also available with a halo back light effect in blue, red amber or green.

Lamp Types

- 60W BC GLS (lamp not included).
- 1 and 2 x 9W 2-Pin G23 Cap.
- 1 x 18W TC-D G24q-2.

PLEASE NOTE — 60W E27 GLS (Lamp not included) also available.

Materials

- Body: Landscape/portrait orientation in vandal resistant polycarbonate self-extinguishing fire properties in black / white / titanium. (plus halo backlight options)
- Fascia Ring: Vandal resistant polycarbonate with self-extinguishing fire properties.
- Diffuser: Vandal resistant polycarbonate clear/opal fresnel lens with in with self extinguishing fire properties.

Installation

- Wall or ceiling mount.
- BESA fixing and rear cable entry. 3 way mains terminal block. 4 way terminal block for high frequency photocell version.
- Auto level Feature.
- Hinged front fascia retained by single screw
- Screw down diffuser
- Photocell version - external use only.
- 2 x Conduit entry points

Standards

- 'F' Mark.
- CE.
- BS EN 60598-2-1
- Class I.

Options

- Switch start.
- High Frequency.
- Tamper proof screws.
- Photocell.
- PIR*
