Type of Proposed Advertisement(s)

Please describe the proposed advertisement(s)

To install an LED sign that will advertise the services of the dental practice at the front of the building. The luminance level of the display will be controlled by a light sensor to adapt to the light level changes in the environment throughout the day to ensure that the perceived brightness of the display is maintained at no more than 300c/m2 above ambience level, which is following the guidelines set by the Institution of Lighting Professionals. The images shown on the sign will be static and will change no quicker than every 10 seconds. They are also keen if possible to mount another sign at the back of the building to again advertise the dental services the surgery provides to draw in new customers and alert them to the dental practice, this drawing has also been included in this application.
