4.0 Heritage statement

The design approach applied here is to refurbish existing timber decked outdoor dining area with a paved sunken outdoor area. The area will be covered with timber pergola and enclosed with timber fence. The colour of the pergola will be painted in black and white to match existing listed buildings style. The structure will be kept under the height of existing boundary fence face against Field End road.

The design approach applied here is to be sensitive in the proposal's scale and apply the existing Tudor Lodge hotel building material palette.
