This determination is based on your submitted plans. All measurements are taken from existing ground level.

2.0 Planning Considerations

The application seeks a certificate of lawful development for the Conversion of roof space to habitable use to include a rear dormer with juliette balcony, 3 front roof lights and conversion of roof from hip to gable end with new gable end window.

The proposals clearly involve development as defined in the Planning Acts. The site is not situated within a Conservation Area, World Heritage Site or AONB, and benefits from permitted development rights. Permitted development rights have not been revoked by a planning condition, and neither is there an Article 4 Direction restricting this particular proposal.

The submitted drawings confirm that the proposed roof extension would:-

- (i) Not exceed the permitted development allowance of 50 cubic metres (semi-detached property);
- (ii) Not exceed the height of the highest part of the roof;
- (iii) Not extend beyond the plane of any existing roof slope which forms part of a principal elevation

- of the dwelling house and fronts a highway;
- (iv) The rear dormer would be set in from the eaves margin by 200 mm;
- (v) All materials would be of a similar appearance to those of the existing dwelling.
- (vi) Rooflights are less than 150 mm above the roof plane and lower than the highest part of the original roof.
- (vii) Permitted development rights have not been removed; and
- (viii) The site does not lie within a conservation area;

The proposed roof extension therefore complies with the conditions stated under Article 3, Schedule 2, Part 1, Class B and C of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).
