**Attachments:** 1848 03 Rev A.pdf; 1848 22 Rev A.pdf

Good morning Zara

I confirm that the property should be correctly noted as being in Flood Zone 2 and not as shown on the FRA submitted with the Planning Application.

Attached are amended drawings 1848 03 Rev A and 1848 22 Rev A showing the existing patio. Photograph 2 provided with the Planning Application clearly shows the extent of the patio. I further confirm the patio is not being extended.

I confirm we are happy with the extension to close of play Monday 11<sup>th</sup> July.

Kind regards

J

[REDACTED]

Yes that's right. As you have already submitted an FRA, the information just needs to be correct. The flood risk would be acceptable as you have said, works are above ground floor level.

Thank you for amending as requested. Hopefully, you can get this sent to me this week and lets agree for an extension of time to Monday please.

Kind Regards,  
Zara
