The V-Shed: Vertical Bike Shed

Hanging bikes side by side is a smart and efficient way to keep your storage organised. With the V-Shed vertical bike shed each bike has its own dedicated space, allowing you to quickly take the one you need without moving others - saving both time and effort. This method keeps your bikes tidy, easily accessible, and is perfect for making the most of limited space.

To hang the bikes we include standard bike hooks or you can upgrade to Steadyrack Bike Racks which require no awkward lifting - just tip the bike upright and roll it on. The hanger pivots side to side, creating more room for access when needed. When not in use the hanger can be folded out of the way against the back wall. Steadyracks can accommodate standard tyres, wheels with mudguards, and even fat bike tyres.

V - Shed 6
6 Adult bikes
Footprint W x D x H
2550 x 1300 x 2200 mm
Standard or Bi-fold Doors
